MOVE TO MAKE BULGARIA SOVIET REPUBLIC

FOCH IS GIVEN RANK OF FIELD MARSHAL IN THE ARMY OF BRITAIN

Very Great Honor Conferred on Allied Generalissimo To-day by King George; Leader Also Is Given Freedom of City of London

London, July 30.—King George to-day received Marshal Foch at Buckingham Palace and conferred upon him the rank of Field-Marshal in the British Army. Marshal Foch later was escorted to the Guildhall, where he was given the freedom of the city and presented with a sword of honor. The Lord Mayor of London entertained the Marshal at luncheon in the Mansion House.

INCREASE BOUNTY PAID ON COUGARS

Encouragement Will Be Given Also to Destroy Crows by Bounty

Included in the provisions of the Order-in-Council prescribing the Game Regulations for the coming season and passed by the Provincial Cabinet this morning are clauses increasing the bounty on cougars and wolves and providing for a ten cent bounty on crows.

In the case of cougars the old rate of fifteen dollars has been advanced to twenty-five dollars and in the case of wolves from ten dollars to fifteen dollars.

The two increases noted are the recommendations of the Game Conservation Board and the provision in respect of crows is the result of a number of opinions placed before the Board during the last few months.

DECIDING VOICE WAS THE KAISER'S

Ludendorff's Version of Germans' Ideas in 1917 Regarding Belgium

Berlin, July 29, via London, July 30 (Associated Press).—Responsibility for the German Crown Council's decision in 1917 that Belgian territory must be held was placed upon the former German Kaiser by General Ludendorff in a communication published to-day by the Deutsche Tageszeitung.

General Ludendorff's letter said that army headquarters merely had sketched the military situation and stated what measures it believed necessary to protect Germany's western frontier in an economic way. The then Kaiser, General Ludendorff said, decided the question and his decision was binding upon military headquarters.

Still a Prussian

Premier Bauer and Dr. Mueller, Foreign Minister, were condemned by General Ludendorff for statements in the German National Assembly at Weimar on Monday criticizing the Crown Council's actions and making public reports of Field Marshal von Hindenburg and General Ludendorff, advising the retention of the Liege district. General Ludendorff inquired where Dr. Mueller had obtained the military information concerning army headquarters.

An outline of what the military authorities were said to have considered the necessary economic unity with Belgium also was published to-day by The National Zeitung.

Taxation Was Schemed

This outline, according to the paper, contemplated the extension of the German customs system to Belgium, the levying of imperial taxes on monopolies there, obligating Belgium to accept German control of Belgian taxation, trade representation and the division of income taxes. It suggested also an arrangement for the equality of citizens of Germany and Belgium and various regulations regarding shipping, legal and industrial questions.

German shipping, according to the published economic outline, would be given rights in the harbor of Antwerp, Belgium would adopt the German monetary system, all damage claims against Germany would be annulled, Germany would take over the Belgian railroads and the German workmen's protection insurance law would be introduced in Belgium.

Allies Tell Soviet in Hungary It Must Stop Its Activities

Zurich, July 30.—(Havas).—The Allies are said to have demanded the unconditional resignation of the Budapest Soviet Government, in replying to the negotiations for the withdrawal of the Soviet opened by Bela Kun, the Communist leader, according to a rumor current in Vienna.

Order-in-Council on the Handling of Canada's Wheat Crop

Ottawa, July 30.—Final details of the Government's policy in regard to the handling of the wheat crop are under consideration to-day. The Order-in-Council has been drafted and the final revision is now in progress. It is expected that the appointment of a purchasing board will be announced to-day.

French Commission Resolutely Attacks High Cost of Living

Paris, July 30.—The first meeting of the Economic Council instituted by Premier Clemenceau to reduce the cost of living was held yesterday. It was decided to increase the number of experts for the sale of food bought by the Government at the same rates as for the army and to submit a decree to the Cabinet Thursday establishing normal prices of foodstuffs.

Submarine Sinks in Long Island Sound; Three Men Drowned

New London, Conn., July 30.—The United States submarine G-2, listed as an obsolete craft and used for experimental work, sank with open hatches in Long Island Sound to-day, and three of her crew of eight were drowned. Others were rescued by men from the United States coastguard cutter Acushnet, which was accompanying the submarine.

The G-2 was engaged in experimenting with depth bombs and she sank apparently without warning.

The submarines N-3 and R-5, with divers, were sent to the spot where the G-2 sank, and early this afternoon one body had been recovered.

The submarine was in charge of Gunner B. W. Morrow.

TREATY IS BEFORE BELGIAN CHAMBER FOR RATIFICATION

Brussels, July 30.—The Foreign Affairs Committee of the Belgian Chamber of Deputies yesterday passed favorably upon the resolution for ratification of the peace treaty with Germany.

London, July 30.—(Reuter's).—Premier Paderewski, of Poland, presented the peace treaty with Germany to the ratification committee of Sejm and recommended its ratification. He said that the treaty should bring happiness to Poland. The Poles had protested against providing for German educational rights in Poland when the Poles were not similarly provided for in Germany. The Allies, however, had assured the Poles that when Germany applied for admission into the League of Nations these rights would be conditions of Germany's admission.

Spain.

Madrid, July 30.—The Foreign Minister introduced a bill in the Senate yesterday empowering the Government to adhere to the League of Nations and the international labor agreement as incorporated in the Treaty of Versailles.

GREATLY HONORED BY KING GEORGE TO-DAY; MARSHAL FUCH

BELGIAN FARMERS WOULD EMIGRATE

Former Army Officer Here Making Unofficial Tour to Investigate

In order to ascertain the opportunities for Belgian settlers in Canada, L. M. Deckers, of Antwerp, late an officer in the Belgian army, was in Victoria during the week end, leaving for Vancouver on Monday.

Before he departed he had a talk with The Times, and explained that during the time he was attached to the Third Canadian Division as liaison officer he heard so much about Canada that he determined to see for himself the opportunities held out in the Dominion. This circumstance was brought home more emphatically than ever by the inquiries he received when holding an appointment after armistice, dealing with the soldiers' re-establishment in civilian life in Belgium. Every week, he says, he received letters from homeless Belgians whose former farms were now masses of shell holes and twisted wreckage, wanting to know whether they could go to Canada to farm. He says the policy was to advise against immigration until Canada had taken care of the 400,000 to be demobilized. Meanwhile he determined to travel through this country, and see conditions for himself.

(Concluded on page 10.)

A NEW ITALIAN MISSION TO STATES

Rome, July 30.—Premier Nitti is organizing a new mission to the United States. Its purpose will be to present Italy's financial and industrial needs, establishment of credits and facilitation of exports and imports.

TREATY IS ABOUT READY FOR PRESENTATION TO BULGARIA

Paris, July 30.—The Bulgarian peace treaty was taken up again to-day by the Supreme Council of the Peace Conference. With the exception of the delineation of the boundaries of Bulgaria, the terms now are virtually complete.

Sofia, Bulgaria, July 29.—Via London, July 30.—(Associated Press).—An atmosphere of uneasiness is discernible here with regard to the outcome of the mission in Paris of the Bulgarian peace delegation.

Bulgarian claims to the Dobruja and her aspirations as to Macedonia are still to the fore in discussion of the peace terms, and despite the hints of possible territorial losses, which have caused concern, there appears to be a general hope that the questions at issue will be determined independently of Bulgaria's position.

(Concluded on page 10.)

AUSTRIA AS WARD OF WORLD LEAGUE

Renner Says She Has No Hope Under Other Conditions

Copenhagen, July 30.—A dispatch from Vienna says that Dr. Karl Renner, in a letter to President Seitz, of German-Austria, outlining his policy of acceptance of the Foreign Ministry, said that German-Austria's struggle for future existence is proving much more difficult than even the pessimists expected. Austria, he asserted, can hardly live in her present position, and can only surrender herself trustfully to the League of Nations.

No Mingling.

German-Austria will not mix in the politics of the great powers nor share in the rivalries of her neighbors, Dr. Renner continued, but will pursue exclusively a League of Nations policy and try to rebuild her national economic system and create a new social order.

"Her hopes will not be in vain," Dr. Renner declared, "unless the League of Nations fails to be right to itself or refuses recognition of German-Austria's right to existence."

CURRIE TO CROSS ON SS. METAGAMA

Government to Join in Reception if General Goes to Ottawa

Ottawa, July 30.—With the settlement of the dock laborers' strike at Liverpool, the probability of a serious delay in the departure for Canada of Lieut-General Sir Arthur Currie, commander of the Canadian forces, has passed away. The Metagama, which will bring General Currie to Canada, is expected to sail from Liverpool on time, but if there should be a delay in the departure of the vessel it will not be for more than a day or two.

Major-General Newburn, Minister of Militia, who returned to the capital to-day, will keep in touch with all arrangements for the reception of General Currie in Canada. At Montreal plans are already being made for a military and civic reception. It is not known what Sir Arthur's immediate movements will be, but if he comes directly to the capital it is expected there will be a similar reception here in which the government will join.

ENGLISH SPEAKING LABOR IS OUTGOTED

British and Americans Have But Nine Votes at Amsterdam Congress

Amsterdam, July 30.—The work of the international Trades Union Congress here was hindered yesterday by a protracted discussion in committee of the old international organization, and the German declaration on the stand of German trades unionists during the war.

The Germans generally maintained an unrepentant attitude until Samuel Gompers, president of the American Federation of Labor, told them plainly that if it were continued it would be impossible for the workers of the other countries to relate relations with them in the future. The German delegates thereupon somewhat relaxed.

COMMITTEE'S REPORT

The committee on its return reported as follows:

"That the statement of Herr Sassenbach (a German Socialist) be incorporated in full; that the regrets expressed therein be registered; that the German delegation confirm frankly and openly the spirit of Sassenbach's declaration; that if the avowal be frank, open and satisfactory, the conference will proceed to the order of the day, but that if it be unsatisfactory, freedom of action be reserved."

Against all expectations the Congress adopted the report without debate after Sassenbach in a few words had confirmed the German declaration. The Congress then proceeded to form a new international.

The position of the various nations in the voting places the British and Americans in an unfair situation. They represent together more than 8,000,000

(Concluded on page 10.)

Admiral Jellicoe to Reach Here About Middle of November

London, July 30.—(Reuter's).—The revised timetable of Admiral Lord Jellicoe's Empire tour calls for him to arrive at Esquimaux, B. C., the point of his landing in Canada, on November 12. He will proceed there from Honolulu, to which place he is to go after visiting Fanning Island.

He is traveling on H. M. S. New Zealand.

KOLCHAK NOW HAS MISSION IN BERLIN

Omsk Government Representatives Protecting Interests of Non-Bolshevik Russians

Berlin, July 29.—Via London, July 30.—Representatives of Admiral Kolchak, head of the All-Russian Government at Omsk, have arrived in Berlin to protect the interests of non-Bolshevik Russians.

The committee is not regarded as a diplomatic mission but the German Minister of the Interior is co-operating with the committee with regard to passports for Russian citizens.

A Free Russia.

London, July 30.—A dispatch received here from Omsk, where it was filed July 16, says the Siberian newspapers are commenting favorably on articles in the French press that insist on the re-establishment of a free, united Russia. Some articles that deal with the advisability of the creation of so-called buffer states on the borders of Russia are severely criticized.

WELCOME TO PACIFIC FLEET AT SEATTLE

Seattle, July 30.—The Governors and other officials and citizens of all the Pacific Northwest States are to be urged to come to Seattle to join in a welcome demonstration when the Pacific fleet of the United States navy arrives, it was announced to-day. The fleet is expected some time in September.

RUMOR SUGAR WILL INCREASE IN PRICE

Jobbers in Canada Now Ordering Large Quantities; Ottawa Conference

Ottawa, July 30.—Inconvenience caused by strikes in Canadian sugar refineries some weeks ago, coupled with the unfulfilled expectation of jobbers and buyers of sugar that there would be a drop in prices, is a factor which counts in difficulties of sugar distribution at present.

At a conference called by the Canadian Trade Commission complaints were read from fruit packers that Eastern refiners were exporting sugar at profitable prices while the home interests were suffering from a shortage.

It was claimed by the Western Fruit Jobbers' Association, Calgary, that deliveries in the last two months were sixty per cent below the corresponding months a year ago. Refiners, however, showed that 12,000,000 pounds more sugar were shipped by eastern refiners to the prairies this year than last year, while 6,000,000 pounds in excess of last year's supplies had been sent by the British Columbia Refinery.

Refiners claimed that rumors of approaching higher prices in the United States had brought about large buying on the prairies for stock and that jobbers throughout Canada had held off too long expecting a fall in price and that they were now ordering in larger quantities than ever in anticipation of the increased price.

SOVIET SCHEME GAINS HEADWAY IN BULGARIA AND STRIKES GOING ON

Very Disturbed Conditions in That Balkan State Are Reported; Reports by Way of Berlin Tell of Demonstrations in Towns

London, July 30.—(Reuter's).—It is reliably stated from Sofia that the internal situation in Bulgaria is most serious. There is a movement to establish a soviet republic and many strikes have begun. The French military mission at Ukrainian headquarters will inquire into the situation and ascertain the wishes of the people.

London, July 30.—Reports by way of Berlin declare Bolshevism is spreading in Bulgaria. Several demonstrations have occurred in the larger towns.

The soviet system of government is demanded, it is added, and a general revolution is momentarily expected.

FIGHTING DIES DOWN IN CHICAGO

Comparatively Quiet To-day; Twenty-six Were Killed; Hundreds Wounded

Chicago, July 30.—Comparative calm marked this morning's situation in the Chicago race war. No serious outbreaks had been reported, the sporadic fights were few and mostly between individuals, and in only one instance were police compelled to shoot. In that case a negro was killed while resisting search by two patrolmen.

Governor Frank O. Lowden and other state and city officials were plainly encouraged by the diminishing evidence of mob spirit. Although practically every militiaman in the state was either in the city or en route here, it was indicated that they probably will not be called to active duty in the streets.

CRISIS PAST

"I believe we have passed the crisis," said Governor Lowden.

The police checked the coroner's official death list of twenty-six and said it was complete. They also found that the list of injured reported to them had increased to 325. One policeman, John P. Simpson, a negro, was killed and upwards of thirty were hurt in the three night of fighting.

The official death list of twenty-six includes a dozen whites and fourteen negroes. No women or children were killed, but scores of them have been hurt.

STOCKYARDS

Few negroes went to work to-day. The most seriously affected district was the stockyards, where only half the working force reported despite heavy police guards along the chief thoroughfares leading to the yards.

Reports that the 75,000 Southern negroes who came to Chicago to get the high war wages had begun to drive South again were scouted by railroad men.

A conference of fifty negro ministers, (Concluded on page 10.)

Attempt to Settle the Yorkshire Coal Strike Failed To-day

Paris, July 30.—An attempt to settle the Yorkshire coal strike to-day proved abortive. The conference of miners and strikers, held at Leeds, at which it was hoped a solution of the difficulty might be reached, failed to reach a settlement.

HELFFERICH WILL SUE ERZBERGER

Former German Vice-Chancellor Says Latter Is Liar and Traitor

Berlin, July 29.—Via London, July 30.—Dr. Karl Helfferich, formerly Vice-Chancellor of Germany, announced to-day that having failed to induce Matthias Erzberger to sue him, he will enter suit against Erzberger "to prove him a liar and traitor, and to bring the truth to light."

A Berlin dispatch under date July 2 reported that Dr. Helfferich, writing in the Kreuzzeitung, blamed the Reichstag's peace programme of July, 1917, fathered by Erzberger, for the moral collapse of the German people. Dr. Helfferich charged that Erzberger had staged a parliamentary revolution without informing the Government and added that Erzberger's action was undertaken at the instigation of Count Czernin, then Austro-Hungarian Foreign Minister.

PEACE GUARANTEE CREATED BY ALLIES

Smallness of Army Renders Germany Impotent, Says Premier Clemenceau

Paris, July 30.—Premier Clemenceau, accompanied by Captain Andre Tardieu, attended to-day's meeting of the committee of the Chamber of Deputies which is considering the peace treaty with Germany.

Written replies to questions formulated by the committee regarding the left bank of the Rhine.

Captain Tardieu read the replies, after which there was a lengthy discussion, the Premier amplifying the replies. He recalled that the Government had presented a memorandum to the Peace Conference setting forth at length the reasons why France should hold the Rhine bridgeheads. The document, presented February 27, had been discussed until the middle of March. At that date the French Government, in agreement with the Allies, had combined various military systems which fully assured the safety of France and which, taken one with the other, were equivalent to occupation of the bridgeheads.

ALLIED TREATIES

These measures had been accepted by the Peace Conference and incorporated in the treaty. In addition to them came the later treaties with Great Britain and the United States guaranteeing immediate and unlimited military aid to France if Germany should attack.

The Premier and Captain Tardieu, answering various objections raised regarding the rapidity of a possible German concentration and the distance of the military help of the Allies, pointed out that it was impossible to admit that an army reduced to 100,000 men could, even in the face of universal indifference of the world in general and France in particular, be raised to several million men armed and equipped, ready for war.

The hearing of the Premier lasted three hours.

WELL-KNOWN LAWYER DIES IN THE NORTH

Fred Peters, K. C., Formerly of Victoria, Succumbs at Prince Rupert

Prince Rupert, July 30.—Fred Peters, K. C., City Solicitor, died yesterday afternoon after a long illness.

Mr. Peters was well known in Victoria, having practiced law here for several years before going to Prince Rupert. Before coming to Victoria he was prominent in Prince Edward Island politics, and held the office of Premier at the time of his departure. As chief counsel for the Dominion in the Behring Sea sealing arbitration he came here in 1907. Shortly afterwards he returned to this Province, and formed a partnership with Sir Charles H. Tupper, K. C. Mr. Peters continued to practice here until he left for Prince Rupert. He was a Liberal in politics, and took an active share in party affairs.

Lieut. Gerald H. Peters, a son of the late Mr. Peters was killed in action in France three years ago.

HOUSE OF LORDS AND TRANSPORT BILL

London, July 30.—The Government had an anxious moment in the House of Lords last night during the debate on the Transport Bill, which already had encountered fierce opposition in the House of Commons, where it was considerably amended.

The Marquis of Salisbury moved that the bill be divided into two bills, one dealing with railways, waterways and the like, and the other with tramways, road traffic, harbors and docks.

This motion was strongly opposed by the Government, and during the debate, which turned largely on the question of nationalization, Mr. Lloyd George listened attentively from the rail fronting the throne and was in earnest consultation with Earl Curzon, Government Leader in the House of Lords, Sir Eric Geddes, Minister without portfolio, and others.

After considerable debate the motion of the Marquis of Salisbury, which if it had been carried would have led to a break dispute between the House of Lords and the House of Commons, was defeated.

ACCOUNTANT NOW RELATES TROUBLE

Tried For Seven Years to Find "the Right Medicine"; Tanlac Has Restored Health

"After failing for seven long years to find a medicine or treatment that would relieve my suffering, I tried Tanlac and soon my troubles were completely overcome," said Neville S. Rooke, a well-known accountant for the Anglo-American Corporation, Ltd., who lives at 2003 35th Avenue, Vancouver, the other day.

"I can't begin to tell you how I suffered during that time," continued Mr. Rooke, "and when I began taking Tanlac I had about given up hope of ever finding a medicine that would do me any good. What I ate would sour and cause gas to form so bad that I could hardly get my breath. Sometimes I actually thought I was going to choke to death. I often had pains in my back which were so severe that I would have to go to bed and stay there until I got some relief. I had no appetite to speak of. In fact, I don't remember that I enjoyed a single hearty meal during the entire seven years. My nerves were in bad condition, too, and I never got a real good night's sleep, and I just kept on going down hill. "A friend of mine urged me to give Tanlac a trial, and I finally bought a bottle. I am as well and strong now as I ever was in my life. I have a fine appetite, and eat three hearty meals every day, and I never suffer the least bit afterwards. The pain has left my back, and I have gained so much in strength that I can do as much hard work as ever, and I don't have that tired, worn out feeling when I finish a day's work. I am no longer nervous, and get good sound sleep every night. Tanlac is the best medicine I ever saw, and I never lose an opportunity to say something good about it."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas—Adv.

CHURCHILL EXPLAINS POLICY OF THE ALLIES IN THE RUSSIAN FIELD

London, July 30.—There was a full attendance of members in the House of Commons yesterday afternoon to hear Col. Winston Spencer Churchill explain the Government's Russian policy, which the Liberals and Labor members both had been strongly attacking recently.

It would be a great mistake to condemn the policy of the Allied powers in regard to this movement, said Col. Churchill. The policy had achieved greater results than ever hoped for, even if it had not achieved all the results expected at the time of the landing at Archangel.

"When the Allies landed at Archangel," Col. Churchill continued, "German divisions were passing from the Eastern to the Western front at the rate of six a month, and that movement was stopped. Early in March the Cabinet decided that Archangel and Murmansk should be evacuated before another winter set in."

Colonel Churchill contended that failure to support Kolchak and Denikin would have allowed the Bolsheviks to grow in strength, which would have fatally deranged the balance in Europe, stultified the League of Nations at the outset, and developed a formidable situation.

He added that in a few months there would not be a single British soldier in Russia, but on the other hand the Government was continuing a powerful contribution of munitions to Denikin and considering the question of economic aid.

The Minister declared he thought it would be a great mistake to ignore the possibility of co-operation between hostile Russia and revengeful Germany, or to suppose "that our victory and European affairs can be left to take care of themselves."

Col. Churchill concluded his address with a warning against agitators for direct action. He declared that things the agitators had attacked, like conscription, were grievances which would be abolished.

GARBAL, HEAD OF HUNGARIAN SOVIET, COMMITTED SUICIDE

Geneva, July 29.—Via London, July 30.—(Associated Press).—Alexander Garbal, President of the Hungarian Soviet Government, killed himself in the Assembly building at Budapest after delivering a speech against the Soviet and the Communist supporters and accusing Bela Kun, the Soviet leader and Minister of Foreign Affairs, of leading the nation to ruin, according to The Munich Nachrichten.

Garbal, until recently, was reputed one of the strongest supporters of the Soviet Government, but lately he was said to have opposed Bela Kun. He was quoted as stating that he realized the futility of the Government's course and its dangers to the country.

SPLIT IN LABOR RANKS IN WINNIPEG

Half of Labor Council Delegates Declare For One Big Union

Winnipeg, July 30.—The split which had been foreseen for some time by those in the labor movement here actually occurred last night when the Winnipeg Trades and Labor Council, by a large majority of the delegates present, adopted the constitution of the One Big Union and ordered the present members of the Council to resign their offices. The secretary and treasurer of the Council to turn over all the Council's property to that organization. There were about 120 delegates present out of a total membership of about 250. From the members of the Council declared after the meeting that it was not a representative one, as the tactics of the radical members toward those not in agreement with them had been such as to keep away many delegates.

The report of the special committee appointed at the last regular meeting for the purpose of investigating and making recommendations respecting a One Big Union form of trades and labor Council was presented. It recommended a constitution, which was then read clause by clause and adopted with little discussion.

The preamble was devoted to proving that the system of craft union organization in vogue in the past was a failure and that the One Big Union was the logical alternative to it. The council proposed by this report was to be known as "The Winnipeg Central Labor Council" and was to be composed of delegates from the several One Big Union units.

Statement by Rigg

At the conclusion of the meeting, R. A. Rigg made the following statement: "As the authorized deputy of the Trades and Labor Congress of Canada, I shall proceed to carry out the instructions given to me by that organization, and the Trades and Labor Council of Winnipeg will carry on."

"The Trades and Labor Council meeting to-night presented the anomaly of having present there as delegates a considerable number who by the laws of their international organizations, that they have previously represented, had no right to be there in a representative capacity. These delegates have been repudiated by the international organizations of which they were previously representatives. Other delegates had their credentials in the hands of the secretary of the Council, but on account of the meeting being a special one the president did not receive new credentials. "There was also the unusual feature of delegates representing organizations that up to the present time have taken no action to break away from their internationalism, who still solidly support the movement of organization of the One Big Union Central Labor Council. "The work of reorganization of the Trades and Labor Council will be immediately proceeded with."

A POLISH MAN WAS MURDERED IN QUEBEC

Quebec, July 30.—A case of murder is causing excitement in the Chicoutimi district, where a Pole, Theodore Kostine, was clubbed and stabbed to death early Sunday morning in a bunkhouse at Kenogami, a small town near Chicoutimi. So far no arrests have been made by the detectives of the provincial police who are on the scene working on the case. It appears that Kostine was attacked in his sleep, beaten to unconsciousness and stabbed. Coroner Rivest investigated the death and a verdict of murder was returned by the jury.

ALLIES READY TO ATTACK BELA KUN

London, July 30.—(Reuters.)—Reuters understands in connection with the Allied warning to Bela Kun, that arrangements have been made for a Franco-Serbian advance to attack the right flank of the army of Bela Kun should the latter not comply with the Allies' terms.

Bucharest, July 29.—Via London, July 30.—The offensive of the Hungarian Soviet Government troops along the Theiss River has been completely broken up, and the initiative in these operations has passed to the Roumanians, it was announced today.

CUTTING WHEAT NOW IN SASKATCHEWAN

Regina, July 30.—Wheat cutting has commenced in many parts of Saskatchewan, according to reports received from correspondents of the Bureau of Statistics of the Provincial Department of Agriculture. Early-sown rye has been threshed near Fort Qu'Appelle, yielding twenty-five bushels an acre. It is expected that the harvest will be general next week in nearly all districts.

From reports from crop correspondents, it is estimated that there was a twenty-seven per cent. decrease in the amount of new breaking compared with that of 1918, the amount in 1918 being 614,950 acres, and in 1919, 447,112 acres.

It is gratifying to note that the amount of land summerfallow shows a slight increase, amounting to three per cent., and while the percentage is small the total increase amounts to no less than 151,389 acres. The acreage under summerfallow in 1918 was 4,060,501, while the area this year is 4,212,799 acres.

PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure you get a box, all doctors, of Edman, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

IRISH PROBLEM. London, July 30.—In the House of Commons yesterday Mr. Hon. Andrew Bonar Law stated that the Government was not prepared to adopt the suggestion that the Governments of the various Dominions should be asked to delegate representatives to sit as members of a royal commission to report on the best form of Government for Ireland.

Consider the Kiddies When Buying Tooth Paste

Be sure that you get a tooth paste that will make them want to brush their teeth and that will keep tender mouths in perfect health, that the second teeth may develop properly.

Minty's Tooth Paste

—has such pleasing taste and wonderful lasting effect of refreshing cleanliness that the kiddies will enjoy it quite as much as you do, and it will keep their mouths and gums perfectly healthy.

Its use adds zest to the joy of living, for it seems to make each meal taste better.

"It's Necessary to Good Teeth," and an aid to good health. Sold where toilet goods are sold.

Palmer, Limited, Montreal

Makers of Minty's Jac-Rose Toilets.

ECONOMY AND GREAT INDUSTRY IN BRITAIN URGED BY THE KING

London, July 30.—The King and Queen drove in state to the Guild Hall yesterday to receive the congratulations of the Corporation of London on the conclusion of peace. They were everywhere cheered along the route.

The brilliant assembly on the platform included the Prime Minister and other Ministers, Ambassadors, Admiral Beatty, Field-Marshal Haig, General Wilson, Lord Reading and other distinguished persons.

Replying to the address, His Majesty, who wore the uniform of an admiral, contrasted the circumstances of his visit to the Guild Hall a year ago, when it was impossible to foretell when victory would come, or how much it would cost, with the situation today.

His Majesty incidentally expressed the sincere hope that the recent example at St. Paul's of several religious denominations joining for the purpose of expressing the nation's gratitude for peace might prove a step toward closer co-operation of religious communities for the spiritual life of the nation.

His Majesty paid a tribute to the glorious deeds of the heroes of the Empire and the splendid services of the mercantile marine. The war had

emphasized that the restoration of the nation's overseas trade, the recreation of the mercantile marine and the development of the ports must be pursued energetically in order to regain the nation's old supremacy. A spirit of unity, self-sacrifice, patience, industry and thrift was required in order to reap the full benefit of peace.

The greatest possible production of necessary commodities and economy were essential in order to maintain the high industrial and commercial position the nation held before the war. He was confident that the ancient sterling virtues of the British people would not fail the nation now and prayed that God would continue to guide and inspire the people so that they would be enabled to worthily use their victory.

ITALIANS WORK FOR CLOSER RELATIONS WITH UNITED STATES

Rome, July 30.—In the newspapers and official circles here plans for the establishment of closer relations between Italy and the United States are being advanced. The opinion is expressed that the case of Italy was not presented in the ablest manner to the Peace Conference or before the American commission and President Wilson.

WINNIPEG STRIKE AND COLLECTIVE BARGAINING

Winnipeg, July 30.—Judge Robson, head of the Royal Commission, which is inquiring into the causes and effects of the recent general strike here, struck a new note at the investigation yesterday when he told a witness, A. F. Wood, that if labor would prove the fact that the recent strike had been called solely on the demand for collective bargaining, he could not see that discrimination could be justly shown by the employers. This demand, said the Commissioner, had been conceded by the ironmasters and the Citizens' Committee, and apparently by everybody except a few individuals, and an employer could withhold employment from a man if he admitted that the reason for the strike was just. Labor would have to prove that there were no other reasons back of the strike than the principle of collective bargaining.

Three witnesses were heard—A. Boughton, president of Lodge 127 of the Brotherhood of Locomotive Firemen; H. D. Stevenson, a locomotive engineer, and A. F. Wood.

All the witnesses testified to a general unrest that had been evident in labor during the past year. The cause of the strike was placed on the high cost of living, which one witness blamed the Government for permitting to exist. Profiteering also was mentioned as the cause of the strike.

Stevenson recommended the formation by the Government of a permanent commission to adjust the differences between labor and capital.

AMERICAN OFFICERS ABUSED AMERICAN SOLDIERS IN FRANCE

New York, July 30.—Scores of instances of brutal treatment of American soldiers in the prison camps in France, described in some cases as amounting to a system of torture, responsibility for which was placed by the witnesses on high army officers, were related yesterday before the Congressional sub-committee which is investigating the disciplinary systems of the American Expeditionary Force.

The men "higher up" who were directly charged by witnesses with responsibility for the prison conditions included Brigadier-General W. W. Hartz, former commander of the American Division in the Paris District; Major-General Frederick Smith Strong, of the 4th Division; Col. Edgar Grinstead, commander of the 158th Infantry; and Col. J. S. Maul, of the Field Artillery. A number of captains and lieutenants also were named as having taken an actual part in the brutal treatment of the prisoners.

At the close of the hearing Representative Johnson announced that all cases in which charges were made would be placed before the inspector-general of the American army, and every effort would be made to bring the guilty men to punishment.

PADEREWSKI BACK IN POLISH CAPITAL

Warsaw, July 29.—Via London, July 30.—Premier Paderewski arrived here from Paris today. He was given an enthusiastic reception by the populace.

OLD HOPE EFFORT WAS OF NO AVAIL

British Government's 1917 Telegram on Peace As Stated By Germans

Copenhagen, July 29.—Via London, July 30.—The session of the General Assembly at Weimar today was one of the most exciting yet held by that body, dispatches from Weimar indicate. In the course of the sitting Foreign Minister Meuller delivered an interesting speech during which he read the telegram from the British Government mentioned in the letter from the Papal Nuncio at Munich recently made public by Matthias Erzberger, the Finance Minister, relative to alleged peace overtures to Germany made by Great Britain and France through the Vatican in August, 1917, which Germany rejected.

The British telegram, which was not dated, was read by Dr. Meuller as follows: "We have not yet had an opportunity to consult the Allies regarding the note received from Your Eminence and are unable to answer the proposal made by Your Eminence regarding the terms for a lasting peace. In our opinion there is no probability of reaching this aim as long as the Central Powers and their allies have not officially expressed their war aims and settled the indemnity they are ready to pay and what guarantees they will give for the future protection of the world against the terrors from which it is now suffering."

"As regards Belgium, they make no definite declaration regarding that nation, nor do they say whether they intend to restore to Belgium her full independence and make good the damage which she suffered."

Four eminence doubtless knows the German position, but the Allies in reply to President Wilson's note. Neither Austria nor Germany ever made such a declaration.

"Any attempt to bring the belligerents to an agreement seems vain so long as we do not know the points wherein their opinions differ."

German Ideas in 1917.

Copenhagen, July 29.—Via London, July 30.—Control of Belgium and possession of Liege were the determination of the German high command in 1917. Chancellor Michaelis drew up a tentative plan for peace negotiations, incorporating in this the demand for Liege and adjacent territory and an economic union of Belgium with Germany. The Chancellor, however, planned to hold Liege only provisionally, as a factor of security.

Field-Marshal von Hindenburg was opposed to the giving up of Liege. He would hear of no talk of an indemnity, nor would he indicate Germany's intentions to the enemy.

General Ludendorff, another of the high military authorities, was for keeping the entire Liege district in German hands. He advised strong military pressure and the driving back of the British and French armies. Only thus, he contended, could Belgium be economically and intimately connected with Germany.

The German attitude was disclosed by declarations read by Premier Bauer before the Weimar Assembly today, when the peace overtures to Germany alleged to have been made by Great Britain and France through the Vatican in August, 1917, were again the subject of discussion. As a preliminary, Dr. Hindenburg Mueller, the German Foreign Minister, read the much-discussed telegram from the British Minister at the Vatican to the Papal Secretary of State which was referred to by Matthias Erzberger, Vice-Premier, in a recent speech before the Assembly, relative to a peace settlement.

Premier Bauer, prior to his reading of the declarations of Chancellor Michaelis, von Hindenburg and Ludendorff, emphatically asserted that the return of a monarchy in Germany would be impossible. He also declared that the former Kaiser would certainly be brought to trial and proved guilty of many things.

Having made public these statements, the Premier continued: "At the same time the so-called Fatherland Party was formed, which supported the demands of the high command. It was the members of this party who supported the annexationists and drove the German people into distraction."

The Premier was interrupted by many of the members, who, leaping to their feet, shouted: "Murderers, traitors, political rascals."

Great Uproar.

So great was the din occasioned that it was impossible to hear the Premier's further remarks.

"I will read you two declarations," he said, "Chancellor Michaelis to von Hindenburg, dated September 18, 1917, and the other dated September 15, 1917, containing von Hindenburg's reply and accompanied by a memorandum from von Ludendorff. You will then understand why no decisive reply could be given regarding the reinstatement of Belgium."

Dr. Bauer then read the notes, which stated the attitudes outlined above.

FIVE-DAY WEEK IN NOVA SCOTIA MINES

Gloucester, N. S., July 30.—Beginning this morning the miners employed by the Dominion Coal Company will inaugurate a five-day week in accordance with the overwhelmingly favorable vote at the referendum held recently at the elections of the United Mine Workers of America.

The intention is that no coal mining or hoisting will be done on Saturday, only repairs and similar work. The five-day week is being put in force by the United Mine Workers of America on their own initiative, no arrangement having been made with the company for it.

COUNTERFEITING INCREASES IN U. S.

Washington, July 30.—Counterfeiting in the United States has been resumed to such "an unusual degree in the last few months," that the secret service, handicapped by lack of money, is finding it difficult to combat it, Chief W. H. Moran reported yesterday to Congress in asking an additional \$150,000 to the \$750,000 recently appropriated for the operations of his bureau during the next year.

Bad Results From Taking Substitutes For Nuxated Iron

Startling Case Cited—Physician Warns Public and Says Ordinary Metallic Iron Preparations Cannot Possibly Give The Same STRENGTH, POWER AND ENDURANCE AS Organic Iron—Nuxated Iron.

The tremendous success of Nuxated Iron as a tonic, strength and blood-builder (its being estimated that over three million people annually are now using it) has led to the offering of numerous substitutes and imitations. In fact, it is now being sold in many cases under the name of Nuxated Iron, which may be more than a little misleading. The cases reported is one of a woman who has threatened to sue for damages the druggist who sold her something purporting to be the genuine Nuxated Iron but which, while similar in name, package and appearance was nothing more than a spurious article, imitating the real thing. This woman claims that instead of obtaining increased strength and improved health as she had with the true Nuxated Iron, she was seriously upset and in fact became ill as a result of using the substitute.

Such instances as these have led physicians mentioned before to emphasize that health officials and doctors everywhere should caution the public against accepting substitutes for Nuxated Iron. Those who feel the need of a strength and blood builder should go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then they should be sure to look on the label and see that the words "Nuxated Iron" are printed thereon.

There are thousands of people taking iron who do not distinguish between organic iron and metallic iron and such persons often fail to obtain the vital energy, strength and endurance which they seek simply because they have taken the wrong form of iron. If you are not strong or well, you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

MANUFACTURER'S NOTE: The widespread publication of the above information has been suggested by Dr. James Francis Bellman, formerly Physician in Chief of the Hospital for the Insane, New York and the Westchester County Hospital, Dr. Ferdinand King, New York Physician and Medical Author, Dr. George E. Baker, formerly Physician and Surgeon, Bonmouth Memorial Hospital of New York, Dr. H. V. L. Loomis, formerly Physician in the Baltimore Hospital and a Medical Examiner and others as that the public may be warned on this subject and protected from the use of metallic iron under the delusion that it is the same as Nuxated Iron, a metal which is well known to be toxic. Unlike the older iron salts, Nuxated Iron is not a mineral but a vegetable, the iron which it contains is not metallic but organic, and it is this organic iron which makes it so valuable to the human body. It is the only iron preparation which is so easily absorbed and which will build up the blood and give the system the strength and endurance which it needs.

Sold in this city by Cyrus H. Bower and all other druggists.

COMMISSION ON THE GERMAN TREATY SET UP BY ALLIES

Paris, July 30.—The Inter-Allied Supreme Council decided yesterday to co-ordinate and interpret the German peace treaty. The commission will be composed of five members, representing the five great powers. The commission will have its headquarters in Paris, but is empowered to convene elsewhere if necessary. It will sit after ratification of the treaty.

The members will have diplomatic standing and will be aided by staffs of advisers.

The Earl of Derby, British Ambassador to France, was announced as Great Britain's representative.

LABORITE ELECTED IN LANCASTHIRE TO THE BRITISH COMMONS

London, July 30.—James Robertson, a Laborite, has been elected in the Rothwell Division of Lancashire in a bye-election, the result of which was announced yesterday. The vote stood: Robertson, Labor, 13,135; T. Moffat, Coalition Liberal, 5,967.

The seat previously was held by a Coalition Unionist.

COAL MINE PROBLEM IN UNITED KINGDOM

London, July 30.—Rt. Hon. Andrew Bonar Law stated in the House of Commons yesterday afternoon that the Committee on Home Affairs was not considering nationalization of the mines, and that none of the statements in the press represented the views of the Government in that regard. It was hoped that an announcement would be made before recess.

BRITISH GOVERNMENT AND EXCHANGE PROBLEM

London, July 30.—Questioned in the House of Commons last night concerning

LIFT CORNS OFF IT DOESN'T HURT

With fingers! Corns lift off and costs only few cents

Pain? No, not one bit! Just drop a little Freezone on that touchy corn. Instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.

Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious ether discovery of a Cincinnati genius.

"Where Quality is Paramount"

ing the depreciation in the rate of exchange between Great Britain and the United States, Stanley Baldwin, for the Treasury, said the Government could do little to rectify the matter except by the expedient of borrowing large sums in the United States. This, he said, the Government was not prepared to do, because it would only be a temporary measure.

FELL AND WAS KILLED
Toronto, July 30.—Mrs. Elizabeth Kent aged seventy, a widow who had seven children, sixteen grandchildren and seven great-grandchildren, fell off the porch of her home here yesterday a distance of six feet and was killed.

Customer: "Are you sure this is Ceylon tea?"
Grocer's Assistant: "Yes, Madam. Mr. Ceylon's name is on every packet."

Children Cry For Fletcher's CASTORIA

A Word About Truth.

"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.

Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrup was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

BRITAIN'S TRIBUTE TO FOCH.

No more fitting honor could have been bestowed upon Marshal Foch in the name of the British Empire than that which makes him a Field-Marshal in the British Army. In so recognizing the genius of the great soldier who led the Allied armies to final victory, King George forged a new and indissoluble link of affection between the Poilu and the Tommy. For more than four years they fought side by side, in the awful days of that August before the war was a month old, in the days when the Teuton hordes were cowed into submission. The two armies became more than comrades in arms. From their united sacrifice for the common cause will arise a friendship born in the common understanding of the Entente Cordiale, tested in battle and destined to perpetuity.

AFGHAN TRUCULENCE.

Sindar Ali Agha Khan, who heads the Afghan delegation to the latest constituted Peace Conference, seems to have conceived the idea that he may pull the lion's tail with impunity. His display of truculence at Rawalpindi is a fairly good imitation of Teuton style, and his annoyance at the suggestion that the tribesmen had first sought peace is typically German.

There is humor in his warning, however, that the combination of all possibilities which made Britain superior to Germany in the late conflict is a course open to the hillmen of Afghanistan. Sindar Ali went so far as to tell Sir Hamilton Grant, chief of the British delegation, that the Indian Government must no longer suppose that the Afghans are a sleepy, ignorant people. The European war aroused aspirations in all nations, observed this wily Afghan.

Continued obstinacy on the part of Amanuella Khan's advisors strengthens the belief we have always held that German money has had more success with the present Amir than it did with the late Habibullah Khan. And while it would be a great deal better to end hostilities now by convincing Amanuella that an eastward spread of Bolshevism would be anything but an advantage to him, there will be only one course open to the Indian Government if Sindar Ali remains obdurate.

The "combination of all possibilities" of which he speaks can be summoned at will; but if the Afghan tribesmen want to live at peace with Britain it will be necessary for the new Amir first to eject such German or Bolshevik agencies as appear to have obtained a hold at Kabul.

A PLEA FOR IRELAND.

If the British Government has evolved a plan to dispose of the Irish question once and for all, the sooner Mr. Lloyd George affords Parliament an opportunity of discussing it the better. As far as Great Britain's domestic peace and international relations are concerned the operation of the League of Nations will give little consolation to the official mind unless the more local irritation can be appeased. At the same time there is no reason why any scheme should be paraded to the public gaze—until it is judged by the Government to be capable of coping with the demands of the case—just because the Northcliffe press indulges in a general challenge for its production. The Prime Minister assuredly realizes at this stage that such proposal as may be decided upon must be one capable of practical application and one in which the majority of the Irish people may find common ground.

METCHOSIN FARMERS
GIVEN AERIAL TREAT

Pathfinder Pays Visit to Thriving Settlement—Dance Follows Exhibition

Last night the aeroplane Pathfinder flew to Metchosin and gave an exhibition of flying on the occasion of a lecture by Lieut. W. Kirkpatrick-Crockett, R. A. F., on behalf of the Aerial League, under the auspices of the Farmers' Institute of Metchosin.

Everything proved an entire success. Despite the predictions of the majority of the Metchosin people the Pathfinder sucked the wind, which varied from forty to fifty miles an hour, arriving at Metchosin about 7.30 and delivered the many spectators with a stunning exhibition. This was rendered all the more difficult on account of the wind, which proved very bumpy.

A few minutes to eight the machine landed and Lieut. W. Kirkpatrick-Crockett gave a short but very interesting explanation of the controls, and this was all the more welcome as a considerable number of the audience had never seen an aeroplane before.

The Pathfinder left for home at 8.15 o'clock, taking off in the teeth of the gale and rising from the ground within three times its own length.

On the return of the Pathfinder all adjourned to the Metchosin Hall for the lecture and entertainment. H. C. Helgesen took the chair. Lieut. Kirkpatrick-Crockett was the first speaker and dealt with aviation from the first experimental stages up to the present day state of perfection. Lieut. W. H. Brown, M.C., gave a brief outline on the work of the fighting-scout aeroplanes in the war. R. G. Christy, of the Aerial League of Canada, gave a few remarks, drawing a striking contrast between life in the infantry and the air force during the war.

Short addresses were given by C. E. Whitney-Griffiths, A. Hankin, Mr. Pierce, and other members of the Metchosin Farmers' Institute.

Following the conclusion of the address a dance was held.

HANDICAP SWIM WILL
BE HELD THIS EVENING

Another race in the July handicap of the Victoria Amateur Swimming Club will be held to-night at 7.45 at the Clubhouse. Earl Squires with eight points and Jack Marshall with seven are at present leading, but there will be one more race after to-night before the points for the month are finally counted.

HOME FOR CHILDREN.

Toronto, July 30.—A new departure of Canadian churches has been undertaken by the Presbyterian Church in the establishment of a home for the children of foreign missionaries. The Presbyterian Foreign Mission Board has purchased the Littlewell House at Oshawa for this purpose.

MORE GERMAN HUMOR.

If the cessation of hostilities and the recent signing of the Peace Treaty did nothing else for Germany her complete submission has had the effect of raising a crop of humorists. Her various military, naval and political leaders have added to the national literature a peculiar collection of apologies and explanations as to the cause, the responsibility for the war and the reason why the Fatherland failed in her bid for world dominion. There has been a hasty desire on the part of each one to get his narrative related first and the whole business has demonstrated to the world the type of individual which sought to enslave civilization.

Even the hard-headed financial expert and former Vice-Chancellor, Dr. Karl Helfferich, has caught the complaint and he announces that because he has failed to induce Matthias Erzberger to sue him he will turn the tables and commence proceedings to prove him a liar and traitor and so bring the truth to light. This may be very entertaining to the parties involved or it may not. It may even suggest hope for Germany, where it could never be said that a sense of humor grew beyond childhood. But what will be the novelty in proving that Erzberger is a liar? Surely Helfferich may take it for granted that most Germans in authority since 1914 have been no strangers to fiction.

MUNICIPAL GOLF LINKS.

There was a time when the people of the United States looked upon the ancient and Royal game as one to be played only by the knickerbockered gentlemen of the British Isles. Golf to the average American in those days was regarded as a British disease having its origin in Scottish bacilli. But times have changed. There is no more ardent golfer in the world to-day than the American, and American experts are by no means limited to the sterner sex. United States professionals long have been famous; the budding pill puncher the world over regards such names as Vardon and Ouimet as synonymous terms. More than 2,000 golf links are scattered over the United States and very many of them are owned by municipalities and operated on municipal authority. And it is because of the ever-increasing and welcome stream of Americans to this Island on pleasure bent that it would be a desirable thing for Victoria to set the pace for British Columbia in this connection. The scheme is an ambitious one. It would be costly to maintain for a year or so until its manifold advantages had enticed sufficient local interest—upon which it would very largely rely for profit. At the same time it is a plan that should not be put on one side lightly, for its value as an added tourist attraction may not be underestimated.

BIGGER COUGAR BOUNTY.

Residents of the Happy Valley and Metchosin districts will welcome the announcement that the bounty on cougars is to be increased from fifteen to twenty-five dollars. For some considerable time past sheep farmers in the southeastern part of Vancouver Island have been subjected to a good deal of annoyance and loss by the depredations of these animals. Numbers of sheep have been carried off from time to time and during the last twelve months it has been necessary to organize expeditions to counter the menace and preserve the sheep. The slender bounty hitherto offered, however, has prevented anything like the campaign necessary to eliminate the pest entirely. With the added inducement it should now be possible to institute action that will remove the danger and at the same time revive the courage of those sheep farmers who were compelled to sell off their stock on account of heavy losses from cougar raids.

If we are to take the pronouncement of the leader of the Afghan delegation to the northwest frontier Peace Conference seriously we shall expect to learn at an early date that there is an agitation going on in the bazaars of Kandahar for the establishment of collective bargaining and that the residents of Kabul insist upon the Amir committing himself to the policy of initiative and referendum.

Apropos of the new regulation prohibiting the use of paved streets for juvenile rollerskating and skating: What will be the modus operandi of dealing with youthful offenders? Will the City Council discipline juvenile transgressors, whose natural inclination may detect the better surface mid-street, by a moderate application of the birch on a graduated scale, or will the unsuspecting parent be hailed to court to pay the penalty of his offspring's exuberance of spirit?

INDICATIONS POINT
TO EARLY CLOSING

Six o'clock Closing on Saturdays May Be General

Judging by all present indications Victoria stores will close at six o'clock on Saturday evenings in the near future.

At present the larger ladies' clothing stores have agreed to close as from August 2, at six on Saturdays, and this week-end will see practically all downtown butcher shops closed at that hour. A large number of grocery stores have decided to adopt the plan, the grocers of the Fernwood district having decided to close at six, regardless of the attitude adopted by other establishments, ladies' hairdressing establishments for the most part will be shut at six o'clock.

It is thought probable that the decision of so large a proportion of shops to close at six will result in the general adoption of the plan.

"Love levels all things," sighed the old-eyed swain, with a pang of pain, as his sweetheart sat on his new hat and smashed it flat.

BRIGHT FUTURE FOR
THE STEWART CAMP

Hon. William Sloan Shows
Government Is Providing
Road Facilities

"I visited the Premier, Big Missouri, Joker, Mineral Hill and other mining properties of the Salmon River section of the Portland Canal district and consider the showings very satisfactory indeed. The indications are that some splendid mines are in the making in Northern British Columbia, and that the country, of which Stewart is the gateway, is likely to witness a considerable advance in a general business sense in the course of the next few years," said Hon. Wm. Sloan, Minister of Mines, this morning in summing up the impressions gained in the course of a tour of the Skeena and Omineca mining districts from which he has just returned.

Mr. Sloan said that the Portland Canal section appeared to be attracting much attention, particularly the new properties being opened up on the Salmon River. The latter faced some little difficulty owing to the fact that the river for eleven miles from the town of Hyder was in United States territory, the chief mineral showings being situated on the Canadian side from three to nine miles from the boundary.

Roads Building. The Premier Mine, of which so much has been heard of late, was constructing eleven miles of road on the United States side, having a gang of eighty men engaged on the work, and the Provincial Government had undertaken to assist in the building of the road necessary in the Province to provide transportation facilities for this and other properties adjacent. There could be no doubt, Mr. Sloan stated, as to the value of the showings on the Premier, this having been conclusively demonstrated by the returns obtained on ore shipments made last winter. Development was proceeding on the mine with business-like celerity.

Situated on Cascade Creek, a branch of Salmon River, were the Big Missouri, in which Sir Donald Mann is interested and which he has announced his intention of opening up without loss of time and on a large scale, also the Mineral Hill, Joker and others. These were inspected by Mr. Sloan who reports that the showings are first-class and that much development work will be done this summer. These properties are reached by a branch trail from the Premier Mine Road, which will require considerable overhauling.

Mr. Sloan was gratified to find mining operators earnestly engaged in establishing the value of these mines with a view to placing them on a shipping basis with as little delay as possible. With the prompt provision of the means of transportation he considers that it will not be long before considerable quantities of ore will be en route for treatment, and points out that the work will mean much for the Province, not only in the way of mineral development, but in increased business and generally greater prosperity, particularly in the northern country, the wealth of the natural resources of which are but beginning to be appreciated.

Stewart to Hyder. The Provincial Government, he states, is constructing a road from the town of Stewart to Hyder, which will both give the mine operators an avenue of transportation between Stewart and the new properties, and afford British Columbia merchants necessary facilities for the transport of supplies in bond through the United States territory to the district being developed. In this connection it is thought altogether probable that the Dominion Government will place a customs officer at the Mile Point on the Canadian side for the purpose of these desires of sharing in this trade. The Stewart-Hyder road will be only a mile in length, but it is heavy and expensive work along a bluff, the expenditure, however, being fully justified by its absolute necessity in carrying out the broad scheme of developing the section lying back of tidewater comparatively easy of access. The Dominion Government is contributing by undertaking the construction at Stewart of a wharf, the cost of which is estimated at \$35,000.

At Anyox.

Mr. Sloan also inspected the plant of the Granby Consolidated Mining & Smelting Co. at Anyox, and was especially interested in the new by-product coking ovens, the operation of which commenced only a few days ago. These were installed at an expenditure of about \$2,500,000 and have a capacity of 270 tons of coke a day. The plant for the handling of the by-products is not yet complete, but pipes are being laid to convey gas to the power plant which when ready will effect a considerable saving in the consumption of fuel. These ovens, it was pointed out by Mr. Sloan, are being fed with the coal of the Cassidy Mines, which the company has opened up to be a good stream of high-grade coal and, with the carrying out of the programme in view, should very materially increase its output.

Much mining activity was evident on G. T. P. Line.

Mr. Sloan went as far East on the Grand Trunk Pacific Railway as Smithers, and visited the mine and properties of the Twelka Coal Mining Company. This company he found to be working on what appeared at the outset to be a good stream of high-grade coal and, with the carrying out of the programme in view, should very materially increase its output.

Much mining activity was evident

In the Hudson Bay Mountain section, a concentrating plant being in process of installation for the treatment of the ores of the Victory and Coronado Mines, which are situated on the Mountain. The Government had agreed to assist in placing the road to these properties in better shape for the handling of the output of these and other properties in the vicinity.

The Silver Standard Mine at Hazelton also was visited, the plant being in operation to capacity and doing well. Generally speaking Mr. Sloan asserts that conditions in the British Columbia North are extremely gratifying, especially from a mining viewpoint. He looks for a continued influx of population and a business revival that will make its influence felt throughout the Omineca and Skeena Divisions, as well as in the business centres of the Province.

CHAMBERS IN SUPREME
COURT SET FOR FRIDAY

The Supreme Court Chambers this week will be held on Friday instead of Thursday. The Court will sit at 10.30 a.m.

MUNICIPAL COUNCILS
TO GATHER AT PICNIC

Will Hold Picnic at Mount Douglas Park Next Week

The Municipal Councils of the City, Saanich, Oak Bay and Esquimalt, the municipal officials, their wives, children and sweethearts, will journey to Mount Douglas next Wednesday afternoon and partake of basket refreshments. Arrangements for the municipal picnic have been discussed in detail by Mayor Porter and Reeve Jones of Saanich, and everything is in readiness for the event.

The party will gather at Mount Douglas at 3 o'clock and probably will not leave the park until the evening, and until a generous spread has been enjoyed. While the picnic will be a most pleasant affair for everyone concerned, it will help also to bring the four municipalities together in that spirit of co-operation which is so necessary for the development of each.

GREAT ROTARIAN WILL
ADDRESS LOCAL CLUB

probably one of the most important Rotary meetings of the year will take place to-morrow when the Victoria Rotary Club entertains the Rev. Leslie Pidgeon, formerly International Rotary President. Mr. Pidgeon is one of the most energetic workers in the movement for a better educational system in Canada, and is well known for his services in promoting the great educational conference to be held in Winnipeg in October. He will address the local Rotarians on the functions of Rotary in democracy.

GETS D. D. DEGREE.

Rev. R. J. Campbell, at one time well known as the minister of the City Temple, London, England, and author of the "New Theology," was recently admitted to the degree of Doctor of Divinity of the University of Oxford. Dr. Campbell left the Congregational Church and was ordained as a minister of the Church of England and is at present vicar of Christ Church, Westminster.

BRITISH METHODIST UNION.
Discussion is taking place in England among the various Methodist churches looking to a great Methodist union such as obtains in Canada. Sir Robert W. Peris, a leading layman of the church, recently gave an article to the press on the subject in which he states that the churches seeking union have a combined membership of nearly 900,000, with 4,525 ministers, 39,541 lay preachers, and 16,296 churches. In 1907 the New Connexion Methodists, the United Methodist Free churches and the Bible Christians united to form the United Methodist Church. The three organizations now contemplating union are the Wesleyan Methodist, the Primitive Methodists and the United Methodists.

PUBLIC MONEY SAVED BY A HEALTH CENTRE

The proposed plan to erect a Public Health Centre in Saanich has given rise to much speculation as to the cost to the ratepayers for the treatment of school-children, and in some quarters doubts have arisen as to whether the ultimate gain is commensurate with the outlay required. In answer to this may be quoted the following extract from an article entitled "Health Expenditures in Proportion to Money Lost," appearing in a recent issue of The Minnesota Public Health Association Journal.

"School Boards which are still dubious as to whether or not the school nurse is really a saving in dollars and cents to the community will find it interesting to know that a large percentage (in the instance quoted below, 86 per cent.) of the school children who fail to make a grade in one year are physically defective. The medical supervision of the schools has uncovered the fact that these same physical defects are usually the cause

of the child's failure to progress mentally.

Rural Nurse's Testimony.

The testimony of a rural nurse also makes it clear that these physical burdens mean an added expense to the school—since every year a pupil fails to make his grade really means that an amount of the school district's money has been wasted. If the nurse could succeed in reducing the number of "repeaters" in every county by one-third, who will say that she is not giving back a great deal more than she gets?

"Public Health Nursing" for February gives the following very clear sketch of the relation of the physical defects to the retarded children and the consequent loss in money indirectly caused by these defects.

"These facts are based on my work done in the schools of my country. Eighty per cent. of poor workers in schools have physical defects. Ten out of every 100 pupils repeat work. It costs \$35.00. It costs \$35 to educate one child for one year. Last year there were 600 'repeaters' in this county—pupils doing the same work twice. This means \$21,000 spent last year for re-education. Eighty per cent. of this money need not be spent for this purpose. Most physical defects can be cured or at least remedied. There is such a striking relationship between poor work and physical defects, that it behooves parents of children who are slow in school to concern themselves regarding the health of the child. If this \$21,000 had been spent to correct the remediable defects of the repeaters, we should not have had to spend it on their re-education, and they would have been relieved of their defects as well. As it is, the \$21,000 was spent and the defects continue."

"Arty and 'Arriet were at the art exhibition. 'Wot's this mean, 'Arty,' asked 'Arriet, looking at the catalogue. 'They call this 'ere picture, 'Two Dogs After Landseer.' The two dogs are there all right, but where's Landseer?"

SUGGESTS PEACE ARCH SHOULD BE PERMANENT

Would Be Decorated by Different Public Bodies
of City

A suggestion was offered by Frank Giolma, M.P., to the present at the meeting held last night to make plans for entertaining the delegates of the Peace Day Celebration should remain standing and that it should be the duty of the different organizations of the city to keep the arch decorated.

Mr. Giolma pointed out that there was no welcoming sign for visitors to Victoria, and the arch neatly decorated with flowers or evergreen would immediately create an impression with people as they stepped from the landing stage. He suggested that different organizations of the city should have charge of the arch for a week or any length of time which was decided upon, and it should be the business of the association during that time to decorate the arch. A sign such as "Welcome to Victoria" or any other appropriate words could be affixed.

The speaker pointed out that there were several occasions in the near future, including the visit of the Prince of Wales, when there should be an arch, and there would probably be many other events when an arch was desirable.

Social Personal

Capt. G. B. Murray, of Halifax, is registered at the Empress Hotel.

Col. J. Duff-Stuart is here from the Mainland.

Lieut.-Col. H. P. Meurling, of Vancouver, was in the city yesterday.

Dr. C. E. Doherty, Medical Superintendent of the Mental Hospital, arrived in the city yesterday.

Miss Hayward, of this city, is visiting in Cumberland as the guest of Mr. and Mrs. R. L. Rideout.

W. E. Ditchburn, Chief Inspector of Indian Agencies for British Columbia left to-day for Creston, B. C. on official business.

Mrs. J. W. deB. Farris returned to the city yesterday morning from Vancouver, where she went to attend a meeting of the Board of Governors of the University of B. C.

Desmond R. Dowdall, who has been spending the past month in Ottawa as the guest of his aunt, Mrs. Joseph Dunne, has left on his way home to Victoria. En route he will visit friends in Toronto, Winnipeg and Vancouver.

Miss Chester Shayer has returned to her home in Vancouver after spending the week-end at the Empress Hotel as the guest of her uncle and aunt, Capt. and Mrs. Durand, of Washington, D.C., who are holiday-making in the city.

The Misses Florence and Dorothy Symes, who have been overseas in England for four years, where they were associated with hospital work have returned to Victoria. Previously they were on the staff of the Empress Hotel.

Under the auspices of the Primrose Lodge, Daughters and Maids of England, an enjoyable five hundred party was held at the A. O. F. Hall last night. Very attractive prizes were awarded the winners in the contest, which was followed by dainty refreshments. The committee directing the arrangements for the affair numbered the following: Mrs. I. Stafford (convenor), Mrs. F. Atkinson, Mrs. James Wilson and Mrs. G. Oddy. The proceeds, which are expected to net a substantial sum, will be devoted to furnishing comforts and entertainment for the returned soldiers.

In full panoply of their tribe, Chief Simon Greensky, of the Chippewa Indians, and Princess Lottie Squanda, celebrated We-Quo-Da, their wedding ceremonial and feast with the Rite of the Three Fires at the Chippewa settlement, north of Oscoda, Mich. About 150 braves and squaws were present. The feast consisted wholly of wild game, collected by tribal hunters in days of chase, served with corn cakes compounded of meal ground between stones and baked before an open fire. The ceremonial ended when the bride and groom puffed gravely at an ancient pipe which, together with the tobacco, had been handed down through generations. Greenky and his bride are well

WELL-KNOWN COUPLE MARRIED TO-DAY

At St. John's Church this afternoon at 3:30 a quiet wedding was performed by the Rev. F. A. P. Chadwick, M. A., the contracting parties being Miss Flora Patton, daughter of Mrs. Martha Patton, of the Alkazar Mansions, Fairfield Road, and Lloyd Mutrie, son

of the well known shoe merchant of Victoria. Mr. and Mrs. Mutrie have left on the afternoon boat for Seattle en route for California, where the honeymoon will be spent, and will later make their home in this city.

Pretty Girl (to soldier just discharged from hospital)—"And how did you feel when the bullet went through your arm?"
"Well, I felt distinctly bored, don't you know!"

A Complete book on NURSING

By

Dr. Lee H. Smith

"Some one has said that 'Nurses, like cooks, are born; not made,' and it is true that the woman who possesses the real 'Mother' instinct makes the best nurse. In caring for the wounded, a word of soothing sympathy goes a long way and does much to hasten recovery."

First aid to the injured, nursing the sick, advice for mother and babe, for those about to become mothers, anatomy, physiology, hygiene, the treatment of slight illnesses, burns, fevers, children's diseases, are all treated in a common-sense way in "Nursing in the Home," a book of 500 pages, profusely illustrated and nicely bound.

When our girls have studied this book on "Nursing," they will be better fitted to perform their duties as mothers, and infant mortality will be reduced. The best way to gain a practical knowledge of nursing is to read this book which is written for beginners, also for experienced mothers of families. It contains medical advice for every one, together with simple home treatments. To be had for 50 cents at prominent drug stores, or write publishers, WORLD MEDICAL PRESS, 654 Washington St., Buffalo, N. Y.

REGULATIONS NOW ISSUED SET OUT HUNTING SEASON FOR BRITISH COLUMBIA GAME

Limited Open Season for Wapiti in East Kootenay—Beaver Protected Throughout Province—Based on Sportsmen's Recommendations

Of particular interest to British Columbia big game hunters are special provisions in the forthcoming season's regulations which prohibit the trapping of bear south of the main line of the Canadian Pacific Railway and permit a limited open season of two weeks in the East Kootenay for Wapiti, the first time the ban has been lifted for a considerable number of years. There is no open season for beaver in any part of the Province and the regulations just passed by the Government also include the total bag limit of game birds for the season, as well as the maximum for any one day.

Full Representation. It should be noted in connection with the regulations set out below that the seasons decided upon are, in the opinion of the Game Conservation Board, calculated to give the maximum amount of sport and at the same time afford essential preservation to those game varieties where quantities are low. At the meeting held in Vancouver on July 21 delegates were present from ten game associations, representative of practically every hunting section of the Province, and a number of well-known sportsmen, added views to those supplied to the Board in documentary form. All recommendations were fully discussed and the following regulations, recommended to the Cabinet by the Board and approved this morning, are the result of careful consideration:

Game Animals. Open dates (both inclusive): Moose: Bulls only over one year old, in Atlin, Fort George, Omineca and Cariboo electoral districts from September 1 to December 15.

Caribou: Bulls only over one year old, throughout the Province, except on Queen Charlotte Islands, and south and east of the main line of the Canadian Northern Railway, from September 1 to December 15.

Wapiti (Elk): Bulls only over one year old, in Columbia, Fernie and Cranbrook electoral districts from October 1 to October 15.

Mountain Sheep: Rams only, over one year old, north of the summit of the Grand Trunk Pacific Railway from September 1 to November 15. Rams only, over one year old, in Columbia, Fernie and Cranbrook electoral districts from October 1 to October 15.

Mountain Goat: Over one year old, throughout the Province from September 1 to December 15.

Bear: Throughout the Province from September 1 to June 30, 1920.

Deer: (All kinds) Over one year old, throughout the Province, except on Queen Charlotte Islands from September 1 to December 15.

Bag limits: One Moose; two Wapiti; two Sheep of any one species or three altogether—north of the Grand Trunk Pacific; one Sheep for Columbia, Fernie and Cranbrook electoral districts; two Goats; three Deer of any one species or four altogether in northern and western districts; two Deer of any one species or three altogether in eastern district.

Game Birds. District No. 1, Northern, includes Atlin electoral district and all of the Province east of the summit of the Cascade Mountains north of the Grand Trunk Pacific Railway.

District No. 2, Eastern, includes all of the Province east of the summit of the Cascade Mountains south of the Grand Trunk Pacific Railway.

District No. 3, Western, includes all of the Province west of the summit of the Cascade Mountains south of the Atlin electoral district, and includes Vancouver Island and Islands.

Ducks, Snipe, and Plover (except wood and elder duck): Northern district, from September 13 to December 27. Eastern district, from September 6 to December 20. Western district, north of 51st parallel, from September 13 to December 27. Western district, south of 51st parallel, from October 18 to January 31, 1920.

Geese and Brant: Northern district, from September 13 to December 27. Eastern district, from September 6 to December 20. Western district, north of 51st parallel, from September 13 to December 27. Western district, south of 51st parallel, from November 15 to February 28, 1920.

Grouse: Northern district (Ptarmigan), from September 13 to December 27. Northern district (Blue, Willow, Franklin), north of 56th parallel, from September 13 to November 27. Northern district (Blue, Willow, Franklin), south of 56th parallel, from September 6 to September 21. Eastern district (of all kinds), from September 6 to September 21. Western district (Blue) except in Delta electoral district, from September 13 to September 23. Western district (Willow) except in Delta and Islands electoral districts, from September 13 to September 23.

European Partridges: Western district in Delta and Saanich electoral districts, from November 21 to November 23. Prairie Chickens: Eastern district, in Kamloops electoral district, from September 21 to September 23.

Pheasants: Eastern district (cocks only) in Similkameen electoral district, from October 27 to November 8; in South Okanagan electoral district, from October 27 to November 1. Western district, except Alberni and Comox electoral districts, cock birds from October 18 to November 23; hen birds (two in one day), from November 17 to November 23.

Quail: Eastern district in Similkameen and South Okanagan electoral districts, from October 27 to November 8. Western district in Cowichan, Esquimalt and Saanich electoral districts, from October 18 to November 23.

Limit bags: Ducks, 20 in one day, 150 for season. Geese and Brant, 10 each in one day, 50 each for season. Grouse, 6 (of one species or 12 of all species) in one day, 50 for season. Prairie Chickens, 5 in one day, 25 for season. Pheasants, (western district) 6 in one day, 25 for season; (eastern district)—Similkameen—4 in one day, 12 for season; South Okanagan, 3 in one day, 12 for season. European Partridges, 5 in one day, 13 for season. Quail, (western) 20 in one day, 100 for season; (eastern) 10 in one day, 50 for season.

Game may be kept for two weeks after open season has expired.

Fur-Bearing Animals. Trapping: Foxes, from November 1

BENSON'S Corn Starch

Pie Fillings!

A little Benson's Corn Starch should be introduced into juicy fruit pies, such as rhubarb, cherry, etc., to prevent running over.

Orange Cream Pie (see Recipe below) is not difficult to make and will prove a happy addition to your dessert recipes.

Serve custards, blanc mange, sauces, gravies, cakes and puddings made with Benson's Corn Starch. Write for booklet.

PIE CRUST

Take 1/2 cup flour with 1/4 cup of Benson's Corn Starch, 1/4 teaspoonful baking powder, 2 tablespoonfuls of lard, or butter, 1/4 cup of cold water, 1/4 teaspoonful salt. Mix flour, corn starch, and baking powder in a bowl, add shortening, rub fine through flour, add last water and salt. Turn onto board, roll lengthwise till smooth and use as desired.

ORANGE CREAM PIE

Place in saucepan over the fire, 1 tablespoonful Benson's Corn Starch, 1/2 cup water, 1/4 teaspoonful of sugar and 1/4 teaspoonful of Lily White Corn Syrup. Boil five minutes. Remove from fire; add yolks of two eggs, 1/4 pint of an orange, and juice of one orange and 1/4 lemon mix well. Line greased pie pan with very thin pie crust, brush out with beaten egg, and sprinkle with bread crumbs. Pour in above mixture and bake in medium oven till crust is light brown. Beat the whites of the eggs very, very stiff; add one tablespoonful of powdered sugar. Arrange by spoonfuls on top of pie and set in hot oven to brown a nice color. Serve cold.

VICTORIA THE NORTHWEST THE WORLD

VARROWS DISCLOSE "DARK HORSE" FOR TIMES' LONG DISTANCE SWIM

Is Former Three-Mile Champion of Northern Counties of England—Big Representation of V. A. S. C.—Miss Edna Currie Will Swim Again

Varrows' Swimming Club have at last disclosed the identity of the "dark horse" who will represent them in The Times Long Distance Marathon from the Causeway to the Gorge on Saturday. John C. Bailey is the swimmer on whom the shipbuilders are pinning their faith, and they are doing so after watching him work out steadily at the Gorge in readiness for the race. Bailey is a modest kind of athlete. He says nothing, but saws wood. For several years he has been out of the swimming game, but has been putting in a lot of practice. An experienced swimmer, all the tricks of training are known to Bailey, and he is rigidly adhering to them. He makes no claims, and says nothing of his prospects. His club-mates who have seen him working out do all the talking for their champion.

"And," they point out, "he won the quarter mile championship, the half mile championship, and the three-mile championship of the counties of Durham and Northumberland, England, and anyone who knows the North of England knows that Bailey would have to travel to beat such swimmers as the North of England would produce for such classic events." For four years in succession he held the three-mile championship. There are a lot of old countrymen in the Esquimalt shipyards who are staking their reputation on John C. Bailey. Bailey is a returned soldier. He struck Victoria at the commencement of the war, and soon went back wearing a Canadian uniform.

The Gorge or Bust. Another entry from Varrows is a sixteen-year-old competitor, Bert Fox. Bert is a husky youngster, and a strong swimmer but has not done much in competitive events. He has been trying the long distance recently, and thinks he can make the three-mile endurance test. "I am not expecting to win the race," says Fox, "but I'll finish or die." Varrows expect to be represented by one other competitor.

Victoria Club's Big Entry. At a meeting of the Victoria Amateur Swimming Club, held last night, it was decided that the entries for the race should be sent through the club, and about ten entries were forthcoming at the meeting. Since the decision of the club was made known, it appears that the already large entry will be added to, and a member of the club this morning expressed the opinion that there may be twenty starters from the V. A. S. C. alone. The entry forms, with the registration numbers of the competitors will be handed in to The Times office to-morrow. It was announced, however, that the ladies of the club will be well represented in the race, and it is probable that there will be as many ladies as men representatives of the Victoria Amateur Swimming Club. Miss Grace Wellburn and Miss Rosie Robertson were among the women competitors mentioned. Of the men Jack McNeil and Jerry Wellburn are among those who will make an effort to cover the long course.

Just Wants to Finish. Jerry proved the pacer last year, and started off at a great clip. He lasted well and maintained a speed which was impossible for the whole distance for a much longer time than the thousands of spectators watching the event thought he would be able to. "This year," says the speedy Victoria Club swimmer, "I am not going to try anything like that. I want to do to finish at the Gorge, and I am not particular where I am placed as long as I am still swimming with the finishing point in view."

Foundation's Young Star. Edna Currie, who is too well known in swimming circles in the Northwest to need any introduction, is the youngest swimmer in the race to date. One of the most remarkable features of the race is that the youngest entry in the race should be a dangerous competitor for first place. Although Miss Currie is only fourteen years of age, she was the second lady to finish the long swim last year, and those who have seen her this year declare that she has improved considerably since that time. Such swimmers as George Cuhna and other stars from the United States who have seen Miss Currie swim have been greatly impressed by the young star, and predict great additions to her already wonderful record in the future.

LATEST RACING RESULTS

Regina, July 29.—Phil Patch won the big 2.12 pace here to-day after a five-heat battle, in which Daisy D. and Hade were his most dangerous rivals. Patch, however, was the best horse in the race, as was evident by his performance. Lou Todd had things easy in the 2.14 trot, winning in straight heats. Both running were good, and all the races were watched by an immense crowd.

Summary.
First race—2.14 trot, purse \$800, 3 in 5:
Lou Todd, Keener 1 1 1
D. J. Burke, Huber 3 3 3
Blindara, Dompter 2 2 2
Guy Boy, Stewart 4 4 4
Tilden B. McGirr 5 4 4
Time, 2:17, 2:17, 2:17.
Second race—2.12 pace, purse \$1,000, 3 in 5:
Phil Patch, Dompter 1 1 1
Halede, House 3 1 2
Daisy D. Rahedale 4 7 3
The Black Bass, Sanderson 2 4 3 dr.
Haj Victor, Rusika 5 2 5 dr.
College Gent, Hazelwood 6 3 7 dr.
Strathell, Barnes 7 5 4 dr.
The Wilkmore, Kenner 8 6 die.
Time, 2:15, 2:15, 2:15.
Third race—2.15 furlongs, running:
Belle of the Kitchen, 1st; Leona, 2nd; Lone Star, 3rd. Time, 1:38.
Fourth race—5 furlongs, running, purse \$250: Salsala, 1st; Prairie, 2nd; Royalty, 3rd. Time, 1:25.
Newark, N. J., July 29.—Jack Britton, of Chicago, waterweight boxing champion, and Mike O'Dowd, of St. Paul, the middleweight titleholder, will meet in an 8-round contest here August 2.

INTEREST GROWS AS TENNIS PLAYERS PROGRESS IN GAMES

Young Vancouver Player, Former British Columbia Junior Champion, Plays Excellent Game—Big Programme To-day

Play was continued in the tennis tournament on the Victoria Club's courts all day yesterday from 10.30 in the morning at intervals of one hour until 8 p.m., with a recess for luncheon of two hours. Over fifty matches were played, and some fine tennis was displayed in all the events.

A Coming Star

The defeat of H. G. Garrett by G. F. Peers, of Vancouver, was not unexpected. The former player reluctantly came out to practice

only a few weeks ago and is not in anything like form. This does not in any way disparage the very fine display of young Peers, who is certainly a coming star. He has an excellent service and goes into the net and volleys like a veteran. The young player will take lots of beating by any of the men entered in the singles.

Considerable disappointment was expressed at the non-arrival of Jack Wright, of Spokane, and R. Harper, of Portland, the former is known as a coming player, both he and Peers being junior champions of British Columbia when studying at the University School here. A match between Peers and Wright would be worth seeing.

To the B. C. Players.

Another excellent match was the mixed doubles between Richards (Vancouver) and Mrs. Beart (Edmonton) against the Peers (Vancouver) and Mrs. Rickaby (Vancouver). The latter couple winning after three fine sets. Richards is a resourceful player, and Mrs. Beart, his partner, has an underhand very puzzling out service. It was not long, however, before their opponents solved the mystery of handling it and put them on a level. Mrs. Rickaby played exceptionally well, and with Peers will give any pair in the tournament trouble to beat them.

In the Third Set.

A long match was played between Boucher and McCallum, the latter just nosing out in the third set. Boucher and McCallum are both evidently out of practice from the number of "outs" and "nets" which they made. Next season both of these players will be heard from.

Seattle Man Wins.

Major Jonta, of Brantford, went down to Seattle, of Seattle, for a splendid fight of three sets duration. Messrs. Mercer and Milne in singles, doubles and mixed with their respective partners keep eliminating all before them. It is expected that a number of fine matches will develop to-day judging from the schedule.

Towards Semi-Finals.

A large number of spectators were present all afternoon despite the very cold wind which swept the courts and made accurate play very difficult. As the play narrows down to the semi-finals the interest grows and still grows. To-day's game include matches in the challenge round of the veteran's championship and the boys under twenty-one for the Powell Cup.

Yesterday's Results.

Following are the full results of the day's play:
Ladies' Singles.
Mrs. Milne beat Mrs. Fairbairn, 6-2, 6-4.
Miss Mayne Macdonald beat Mrs. Sweeney, 6-1, 6-2.
Miss Iriens beat Mrs. Gillespie, 6-0, 6-2.

Mrs. Cushing beat Miss Bradford, 6-3, 6-4.
Mrs. Clute beat Miss Henderson, 6-4, 6-3.
Miss Cotsworth beat Miss Kitchen, 6-3, 6-2.

Wismar beat Miss Donald, 4-6, 6-1, 6-4.
Miss Lawson beat Mrs. Beart, 6-4, 6-1.

Men's Singles.
Boucher beat McCallum, 6-2, 2-6, 10-18.
Gordon beat McGill, 6-3, 6-2.
Dr. Shannon beat Major Jones, 6-2, 3-6, 6-2.
Wabrushek beat Gillespie, 10-8, 6-0.

Richards beat Hepburn, 6-3, 6-4.
Garrett beat S. Harris, 6-0, 6-2.
G. F. Peers beat Garrett, 6-2, 6-2.
Verley beat W. E. Corfield, 6-2, 6-3.
Curtis-Hayward beat Berill, 2-6, 6-1, 6-0.

McCallum beat Lewis, 7-5, 6-3.
Mercer beat Leeming, 6-3, 6-0.
Garrett beat Duncan, 6-3, 4-6, 6-2.
Robertson beat Hadley, 6-3, 6-0.

Hudson beat Farley, 6-2, 6-2.
Collings beat Proctor, 6-4, 6-0.
Verley beat Hayward, 6-1, 6-0.
Rev. S. Ryall beat F. A. Phillips, 6-0, 6-0.

Ladies' Doubles.
Mrs. H. Mogg and Mrs. G. Mogg.

Looking Things Over

The Tennis Tournament.

Much credit is due to the Victoria Tennis Club for work they are doing through the medium of their tournaments in making the city a popular visiting place for tourists. The successful tournament proceeding this week on the well kept courts at the Willows has attracted visitors from all parts and a favorable impression is immediately created when they visit the home of the local club. Fortunately the weather for the opening day was ideal for tennis and the green, neatly trimmed grass courts, comfortable club house and beautiful surroundings generally were the subject of a lot of comment among the visitors from the United States. When they return to their homes they will carry away an impression of the stay in the city that is the kind of impression Victoria likes people to obtain. President Brown and the other officers of the club are also working hard to make the visitors' stay comfortable.

The Mayor is Also a Sportsman.

Although Mayor Porter failed to do anything with General Leckie's deliveries at the opening of professional baseball in Victoria this year, he admits that he used at one time to rank pretty high in the batting averages in the sand lot league. At any rate, His Worship proved himself a Class A baseball fan, and has followed it up by helping to encourage swimming in the city. Mr. Porter is a donor of one of the three cups that have been offered, in addition to the one presented by The Daily Times for the long distance marathon. The race, which proved such a feature last year, again proving one of the swimming events of the Northwest, and the competition among the different clubs of the city to produce the winner of the race is becoming keen.

Winning Back Their Place In Sport.

Having already started out successfully this season to place the James Bay Club in the same high position it held in the sporting life of the Province in the days before the war, the James Bay Athletic Association promises to live up to its ambition. The club, which has produced many champions who have won credit for Victoria at important regattas in previous years, has marked its return to competitive events by again proving its superiority. August 2, at Shawinigan, four representative oarsmen will carry the club's colors, and possibly some members will take part in canoeing events. The club will also be represented, Secretary Cox reports, at Indian River, on August 16, and at home the Flumerfelt Cup regatta on August 30 will be the next big event.

Western Championships.
Kansas City, Mo., July 26.—The western championship tennis tournament which opened Monday has narrowed down to a succession of fast and interesting matches. In the play so far not a single favorite has been endangered.
Several matches are carded for to-day. The last two entries, Willis H. Davis and H. Van Dyke Johns, the California stars, arrived to-day and a hard day of play is marked up for him.

It is as difficult to understand some people as it is for a bald-headed man to know where to leave off washing his face and start on his head.

A COLLAR FOR EVERY NECK

What's your size? We can fit you perfectly with our 4-ply quarter-size collars in wing or turn-down styles. Your own particular preference in a collar as to height, cut, style, etc., can be satisfied from our assortment. How about one of the new shirt patterns? Shirt style reigns supreme here.

TO PROTEST AGAINST
STOPPAGE OF WATER

Victoria West Brotherhood Will Meet Council Regarding Situation

To protest against the conditions which caused the district in which its members reside to be left without a water supply for twenty-four hours, a committee of the Victoria West Brotherhood will wait upon the City Council in the near future. The same conditions are being investigated by Mayor Porter, who views the whole matter with the utmost dissatisfaction.

"The Victoria West Brotherhood in its protest will have me behind it," said Mr. Worsley this morning. "For I consider the occurrence which left Victoria West without water as a very serious one, particularly in case of fire."

The Brotherhood will also request the School Board at its next meeting to hasten repairs to the Victoria West School grounds.

Nasty Throat Droppings
Catarrhal Discharges
Quickly Cured

Doctors recommend Catarrhazone, it is nature's own cure. It drives out the germs, heals sore spots, cleans away every vestige of Catarrhal taint.

You send the soothing vapors of the pine woods, the richest balsams and healing essences, right to the cause of your trouble by inhaling Catarrhazone. Little drops of wonderful curative power are distributed through the whole breathing apparatus by the air you breathe. Like a miracle, that's how Catarrhazone cures bronchitis, catarrh, colds and irritable throat. You simply breathe its healing fumes, and every trace of disease flees as before fire.

So safe, infants can use it, so sure to relieve, doctors prescribe it, so beneficial in preventing winter illness that no person can afford to do without Catarrhazone. Used in thousands of cases without failure. Complete outfit \$1, lasts three months, and is guaranteed to cure; smaller size 50c, all dealers or the Catarrhazone Co., Kingston, Ont.

"Chautauqua" Competition Results.—A short time ago H. S. Stevenson offered prizes for largest number of words constructed from the letters used in "Chautauqua." Messrs. J. F. Scott, J. Fletcher and C. J. Dyke were appointed judges, and out of 110 competitors have awarded the prizes as follows: (1) Miss B. Bullock-Welster, 1093 Davis Street; (2) Mrs. Corbett, P. O. Box 408; and (3) Mrs. Ken-nah, 2045 Oak Bay Avenue.

Grand Garden Fete at the adjoining gardens of Mrs. J. H. Todd and Capt. J. H. Gillespie, Fairfield Road, July 31, afternoon and evening. Music, games, fortune-telling. Concert at eight, in evening. Admission 25c, including refreshments. Proceeds in aid of organ fund of St. John's Church.

Portraits of H.R.H. Prince of Wales.—Messrs. T. H. Hibben & Co. desire to meet the lady who recently loaned the portraits for exhibition in their window and will appreciate a call either by telephone or in person.

More Boys Off For Camp.—Fourteen boys left this morning to spend a couple of weeks at the Y. M. C. A. camp at Camp Martindale, Patricia Bay. Registrations are now being received at the Y. M. C. A. for the next lot of boys to be sent out to enjoy the pleasures of open-air life.

PLAN TO ENTERTAIN
VISITING EDITORS

Public Bodies of City Anxious to Welcome Delegates

Representatives of public bodies of the cities, called together by Publicity Commissioner McAdam, met last night at the rooms of the Development Association, and made preliminary plans to provide for the entertainment of the delegates of the National Editorial Association who will visit Victoria August 17, 18 and 19. A reception to the delegates in the Empress Hotel, instead of the Parliament Buildings, as previously suggested, was decided upon, and the Lieutenant-Governor and the Mayor will be asked to receive the delegates upon arrival. Representatives of the two daily newspapers of the city will also be asked to take part in the reception. The delegates will be entertained to luncheon at the Empress Hotel and automobile trips are to be arranged. Among the speakers at the luncheon will be Dr. S. F. Tolmie, M.P., and John Cochrane, President of the Canadian Club.

Influential Visitors.
J. C. Pendray, the president, explained that about 300 visitors were expected, and it would be one of the most influential conventions ever held in the city. He understood it was the first time the National Editorial Association had ever held a convention outside the United States. They had been brought to Victoria through the Victoria and Island Development Association, in connection with the Pacific Northwest Tourist Association. Edmonton and Calgary were exerting themselves to show the visitors the attractions of the district and Victoria should not pass up the opportunity of obtaining advertisement. The Government had been approached to provide some entertainment for the delegates, but had not assented to any financial assistance.

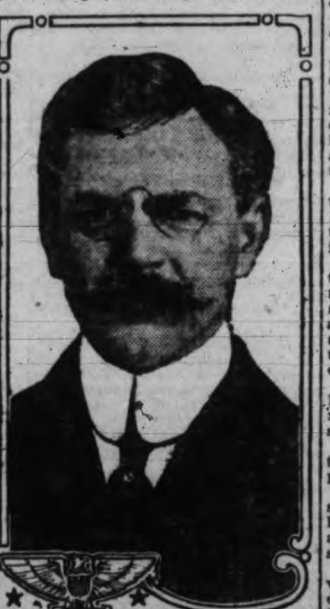

Spending Liberally.
Mr. McAdam mentioned that Portland was spending \$10,000 to entertain the delegates and Seattle \$5,000. At Winnipeg a banquet was being given to them, presided over by the Premier and attended by the Lieut.-Governor.

Committee Chairmen.
Chairmen of different committees were appointed. As some of the appointments included men who were not present at the meeting, the hope was expressed that those appointed would co-operate in arranging a programme for the delegates that would create a favorable impression. Reception, J. O. Cameron; finance, J. L. Tait and Geo. Brady; automobile transportation, Geo. J. Warren; decorations, James Hunter; ladies' entertainment, Mrs. Hasell; registration, J. Thomson.

A further meeting will be held Monday in the rooms of the Development Association and a good attendance of all interested is hoped for.

NOTABLE WAR PICTURES
Famous Photographer Brings Views of Last Days of the War.

The most remarkable set of last-minute war pictures and views of peace days on the continent which the country affords will be shown at Chautauqua by Henry Warren Poor, expert photographer and well-known lecturer. Mr. Poor's selection has been secured in two trips overseas and through his particularly fortunate position as head

of the Slide and Color Department of the great photographic firm of Underwood & Underwood. He is the first to see and select from the vast amount arriving each week from Europe.

His lecture has been voiced by Eastern papers as one of the most informative and interesting of the platform. The views shown include the last days of the offensive on the American front, Yankee troops crossing the Rhine, occupation of German cities and fortresses, President Wilson's visit to France and photos taken during the Peace Convention.

Basket Picnic.—The local Herd of Elks are holding a round up on August 3 at the Experimental Farm. Cars leave B. C. Electric Depot at Douglas and Pandora Streets at 10 a.m. Tickets can be obtained from the following: Digson Printing Co., Spence Doherty, Terry's Drug Store, W. H. Wilkerson and Northwestern Creamery. For further information phone 456 Elks Club.

Staff Picnic.—The staff of W. H. Wilkerson and their families enjoyed a very pleasant day at the Government Experimental Farm, Saanich on Sunday last.

Mr. Bacon—"How did you like my speech at the dinner last night?"
Mrs. Bacon—"It reminded me of the time when you courted me, dear."
Mr. Bacon—"How so?"
Mrs. Bacon—"Why, I thought you never would come to the point."

APPARENTLY CIVIC
CRISIS WILL COME
TO END TO-MORROW

Dismissed Employees Will Vocate Posts; Protests Not Yet Considered

Apparently the labor trouble which has been brewing in the City Hall of late will come to an end to-morrow, in this case with a victory for the City Council. As the Aldermen have not yet had an opportunity to consider the protest of the Civic Employees' Protective Association against the dismissal of three employees in the Waterworks Department, the workers in question, it is understood, will leave their positions to-morrow, the last day of the month.

The protest of the Association has been shelved by the City Council for several weeks now owing to the pressure of business, centering chiefly about the Johnson Street bridge agreement. Each night the Aldermen have adjourned at a very late hour, before it was possible to debate the employees' letter. And in the meantime the end of the month will arrive to-morrow. As the Water Commissioner has the right under by-law to dismiss employees, probably nothing further will be done in the matter as far as the Mayor and Aldermen are concerned. The letter from the Association may be considered on Monday evening, but it is not probable that any action will be taken to reinstate the three employees over whom the storm arose. These men have been promised, however, that they will be given work if they desire it as soon as opportunity offers.

A New Blood-Food
Has Been Discovered
That Works Wonders

SAID TO PUT NEW LIFE INTO PEOPLE THAT ARE RUN-DOWN.

For years doctors have been searching for a combination that would enable them to inject into thin blood the elements it lacked. This can now be done, and any weak-blooded person can quickly be made strong and well. Already a small army of ailing people has proved the merit of taking after each meal with a sip or two of water two Chocolate-coated Ferrozone Tablets. This is easily done, and even one week's use of this wonderful blood-food will prove how nourishing and strengthening and flesh-building the treatment is.

Just think of it—Ferrozone uplifts the entire nervous system, removes the blood, makes it rich and red—gives the sort of aid that's needed in throwing off weakness and languor. Tens of thousands enjoy the advantages of renewed health through Ferrozone; if you'll only use it, you'll surely grow strong too; its beneficial action is noticed even in a week. You see it goes right to work, removes the causes of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferrozone is a boon; it is a specialist in such cases.

Where there is paleness, poorly appetite and languor, Ferrozone makes the patient feel like new in a few days.

In tiredness, nerve exhaustion, spring fever and debility, the power of Ferrozone is known from coast to coast and universally used with grand results.

Let Ferrozone build you up, let it win you back to robust health—it will do so quickly if you give it the chance. Sold by all dealers. 50c. per box or six boxes for \$2.50. Remember the name Ferrozone.

University Returned

Soldier Students

The University of British Columbia has provided means whereby those students in Applied Science who enlisted during their University course or during their matriculation year and have intentions of proceeding in the fall, may resume their studies during the summer months. This provision has been made at the suggestion of returned soldier students who are desirous of completing those studies which were interrupted by enlistment, so that regular courses may be continued without undue difficulty.

The LOGICAL WAY

Looking at the question in a purely logical way, there is no reason for paying exorbitant prices for undertaking services. When we are called upon to take charge of obsequies, we bring tact, taste and skill to the task. And the same motive which impels us to do the very best we can also prevents us from taking advantage of the occasion to impose unnecessary expense upon the family we serve.

BIRTHS, MARRIAGE, AND DEATHS

DIED.
HARKNESS—On the 29th inst., Almer Harkness, beloved wife of Mr. Matthew Harkness, of 415 Dunedin, aged 41 years; born in Birmingham, England, and a resident of this city for the past year and nine months. She leaves to mourn her loss, besides her husband, two sons and one daughter, of this city; a father, mother and two sisters in Birmingham, England.
The funeral will take place on Thursday, the 31st inst., at 2 o'clock, from the Bands Funeral Chapel, Rev. Chadwick will officiate and interment will be made at Ross Bay Cemetery.

CARD OF THANKS.

Mr. and Mrs. C. Smith and family, of 2921 Cedar Hill Road, desire to express their heartfelt thanks to their many friends for kind words of sympathy extended them and for the many beautiful floral tributes sent during their recent and bereavement in the loss of their loving son and brother.

BELGIAN FARMERS WOULD EMIGRATE

(Continued from page 1.)

The Devastated Area.
"There are," he stated, "between 15,000 and 20,000 Belgian farmers in Flanders whose lands have been ruined by war, and many of them have small chance of ever doing anything at home again, owing to the good surface soil having been blown away, and the poor sub-soil scattered broadcast throughout the countryside."
Talking of reconstruction, he explained that the factories of eastern Belgium are getting into good shape, as the machinery is being traced to Germany and restored by the plunderers. However, in the south the damage has been so considerable as to enforce a complete cessation of industry until the mills and factories can be rebuilt, and machinery imported. Meanwhile the Belgian peasantry are suffering.

In Continuous Service.
Continuous service with the Belgian Army throughout the war, and only once gassed in the record of Mr. Deckers. He told The Times that he was engaged with the British Naval Brigade in the defence of Antwerp, and was forced to retreat to Dutch soil when the Germans occupied Antwerp in October, 1914. He was interned in Holland, at Utrecht, but escaped with two British officers by borrowing civilian clothing, and getting out of the camp by climbing the railings during a fog. Unfrequented paths, and fields they reached the Dutch coast, and eventually arrived at Rotterdam. Here they were enabled to get to England by their respective consuls. Only two days later Lieut. Deckers was re-joined his unit, the First Belgian Lancers. During the fight round Ypres he was gassed, in fact he says if the gas had been of the composition which was afterwards the case, he would not be alive now.

During the four ensuing years Lieut. Deckers was attached as liaison officer for various units, and for a considerable time the commander of the Third Canadian Division. He received a cordial invitation from a number of officers, including Brigadier-General J. A. Stewart, to come to Canada on a visit, an invitation he is now accepting.

WILL MINE GOLD IN DUTCH GUIANA

New York, July 30.—Selling with \$1,000,000 worth of machinery and a party of fifty mining engineers and workers, Mr. and Mrs. Perry Tiffany, prominent in New York society, today are on the way to Dutch Guiana to mine a gold deposit Mr. Tiffany said he discovered on the Moroni River eighteen years ago.
The secret of the discovery had been carefully guarded pending the obtaining in France and Holland of concessions giving him mining privileges for 100 miles along the river, Mr. Tiffany said.

OSCAR HAMMERSTEIN DYING IN NEW YORK

New York, July 30.—Physicians attending Oscar Hammerstein, grand opera producer, declared today his condition is so critical that they fear he can live only a few hours. Mr. Hammerstein's entire right side is paralyzed.

FIGHTING DIES DOWN IN CHICAGO

(Continued from page 1.)

professional men, social workers and business men, after investigating the causes of the Chicago race riots, issued a report to-day calling upon Governor Lowden to detail state troops to end the disturbances.
"The race riots are the inevitable result of the friction and bad feeling due to the indifference of the public officials to the bombing of houses occupied by negroes in certain sections of the South Side," the report reads.

Bitter Fighting.
Chicago, July 30.—Bitter fighting between white men and negroes spread last night to all parts of Chicago, the serious casualties being more numerous than at any similar period in the racial war. The city authorities made no call for troops, and in the absence of such request Governor Lowden could not order the soldiers to take charge, although with the arrival to-day of two more regiments, 3,000 well-armed men were resting on their arms.
The death list at dawn had reached twenty-six. An incorrect police report last night had set it higher, but investigations showed that no one had been killed in a spectacular automobile crash and race fight at 35th and State Streets.

Negroes Killed.
The authenticated deaths in last night's fighting were two, both negroes. One was killed in the Italian district of the West Side and Ira Henry, aged forty, was shot dead when he aided one of two policemen who were seeking to search him for weapons. In other instances white men and negroes slashed each other with knives, shot from ambush or ran down isolated members of the other race and beat them into insensibility. There was some looting of abandoned residences and stores in the south side colored district, and a number of small fires were ascribed to incendiarism.

The Ninth Regiment, from the southern part of the state, and the Tenth, from Central Illinois, pushed toward Chicago to-day to add their rifles and machine guns to the potential army already here.
The police struggled vainly to clear the rioters from the South Side negro quarter and early last night apparently succeeded, only to find that the mob spirit had spread like a plague to other regions. On the West Side Italians attacked negroes, and in one case partly burned the corpse of a victim with gasoline. On the North Side fighting proceeded for several hours and in the residential district known as Woodlawn and Englewood, on the far South Side, fierce fighting took place.
As the overworked police force dashed to these quarters, several miles from the centre of the war, the smoldering flames of anarchy burst out anew in the colored district. A patrol wagon crashed into an automobile filled with hoodlums and a fight followed that caused probable fatal injuries to three men and the wounding of several others. The wounded were taken to Provident Hospital, a negro institution, and a crowd of white men attacked the infirmary, causing considerable damage.

During the rest of the night outbreaks occurred with regularity, and although one fatality was reported from the night's orgy of hatred, the number of severely hurt was greater than for Monday night, probably a dozen suffering fatal hurts.
Whites Aggressive.
The white men again seemed to be the more aggressive, the negroes having been converted to peace by saner members of their race or cowed by the brutal beatings sustained by scores. Sleeping car porters accepted an offer of the company to house them rather than go home, and an advertised jazz band concert at the municipal pier was called off because the negro musicians refused to perform.

Arms Plentiful.

The police have collected a veritable arsenal of weapons since the rioting began, but despite their vigilance arms and ammunition seemed to be plentiful.
Starting the fourth day of warfare, Patrolman Walter Sullivan was probably

ably fatally shot by a negro for whom he was searching in a vacant lot. As Sullivan fell, his partner, John Keel, shot the negro down. During the night fifteen other policemen were hit by bullets, and one or two may die.

Investigation.
State's Attorney Hoyne announced that the August grand jury will investigate the race riots and attempt to fix responsibility for the outbreaks. Coroner Hoffman to-day resumed the taking of testimony in the inquest over the bodies of the victims.
Berger Oldman, white, twenty-one years old, an employee of the Chicago Telephone Company, was shot in the abdomen in a fight with negroes last night and died this morning.

Street Car Strike.
Chicago, July 30.—Strike-bound Chicago found hope of relief in the announcement to-day that chiefs of the surface and elevated men's unions planned a referendum of the entire union membership to determine whether the strike should be continued. The union membership is 15,000, and the attendance at the meeting at which the strike vote was passed over protests of the leaders was only 6,000.

Meanwhile the tie-up is as complete as yesterday. Officials of the company said no effort would be made to run cars with the aid of strikebreakers. Notices were issued calling on automobile drivers to aid pedestrians by conveying them in the directions in which the drivers were bound. This "help Chicago" notice has helped greatly.
Every railroad entering the city brought into use its entire passenger equipment and ran additional trains to accommodate the suburban population.

W. D. Mahon There.
Chicago, July 30.—W. D. Mahon, international president of the Street Car Employees' Union, upon his arrival in Chicago to-day took personal charge of the strike of 15,000 surface line and elevated road employees and promised to do everything in his power to settle the dispute without unnecessary delay.

Mr. Mahon's first action was to send a letter to the officials and members of the executive committee of the local unions calling a conference at 2 p.m. He said he wanted to learn from the local leaders every detail of the union mass meeting which resulted in the calling of the strike. He declined to discuss the situation until after he had obtained this information.

It is believed Mahon will urge the union to take a referendum vote on the compromise offer of the transportation lines granting a maximum scale of sixty-five cents an hour to the employees of surface lines and sixty-seven cents to the elevated men, with an eight-hour day and time and a half for overtime.

TREATY IS ABOUT READY FOR PRESENTATION TO BULGARIA

(Continued from page 1.)

participation in the war against the Allies.
Prominent spokesmen here express a strong desire to see peace brought about through the visit of the mission to Paris, together with hope, as one of them said, that the terms would be "something we can swallow."

Great Britain and the United States are understood to be friendly, but the belief in this friendship is voiced with less certainty than previously.
Bulgarian Note.
Paris, July 30.—The Bulgarian peace delegation to-day afternoon sent its first note to the Peace Conference. It took the form of a voluminous document claiming Macedonia, Dobruja and Thrace as purely Bulgarian territory and insisting that they must be given Bulgaria.

BODY RECOVERED.

Seattle, July 30.—Rescue workers early to-day found the body of James D. Webb, foreman of a coal mine at Burnet, Wash., who was killed in a cave-in at the mine Monday. Three miners who were trapped with Webb by the slide escaped Monday.

GENERAL AMNESTY NO DESIRABLE

Ottawa Negatives Peace-time Suggestion For Short-term Prisoners

Montreal, July 30.—At the time of the proclamation of the armistice, Robert Bickerdike, honorary president of the Canadian Prisoners' Welfare Association, addressed a communication to the Minister of Justice on behalf of that organization suggesting that the advent of peace might well be marked by a general amnesty for prisoners who at the time were undergoing sentences in prison of not more than thirty days.
In reply, the Acting Deputy Minister of Justice, W. Stewart Edwards, states that the Cabinet Council, to whom the Minister submitted the proposal, did not consider it would be practicable or desirable to proclaim a general amnesty on the occasion of the advent of peace.
In expressing his disappointment at this result, Mr. Bickerdike states that in his opinion the Government has missed an opportunity of giving a moral stimulus to hundreds of minor offenders which would have been a good start for the new era of peace.

TREATY IS BEFORE BELGIAN CHAMBER FOR RATIFICATION

(Continued from page 1.)

French Attitude.
Paris, July 30.—(Associated Press).—A disposition to delay final action on ratification of the German peace treaty until the United States Senate acts on the Franco-American military treaty was indicated to-day by those in touch with the situation, as representing the majority view of the peace committee of the Chamber of Deputies.

American Senate.
Washington, July 30.—Informal discussion among Senators to-day developed that opposition to the special defensive alliance with France is likely to be centred along two general lines—that it is directly antagonistic to the tradition of no entangling alliances and that it subverts the constitutional rights of Congress to determine questions of war or peace.

Although the President has taken the position that the treaty is no properly an alliance, Senator Borah, of Idaho, a Republican, and others maintain that it has all the force of an alliance which have been common among European nations. In the view of this group the treaty will be even more in contradiction of American tradition than Article Ten of the League of Nations covenant.
In view of the administration neither Article Ten nor the French treaty would go further than the Monroe Doctrine in curtailing the power of Congress to declare war.

CURRIE TO CROSS ON SS. METAGAMA

(Continued from page 1.)

load of returning soldiers will have sailed for Canada.

July 19 Event.
Ottawa, July 30.—It is officially stated that on account of the arrangements for demobilization it was with the greatest difficulty that a Canadian detachment was got together to represent the Dominion in the victory and peace celebrations in London on July 19. The effort, however, was as successful as could be expected under the circumstances and Canada, it is stated, was represented in the celebration by as many troops as Australia.

British Pensions.
London, July 30 (Reuters).—The report of the pensions committee recommends all-round substantial increases in pension allowances in accordance with the recent suggestions of Field-Marshal Haig, including an increase of the flat rate total disability pension to single men to forty-shillings weekly. It is estimated that the increases would involve annually an expenditure of £18,000,000.

ENGLISH-SPEAKING LABOR IS OUTVOTED

(Continued from page 1.)

workers among the 17,000,000 workers represented at the Congress, but have only nine votes of the total of twenty-seven, which may be cast on motions.

The main points of the resolution presented by Bassenbach follow:
The German trade unions always recognized that Germany acted wrongly in Belgium, and always condemned atrocities committed. German occupation of Belgium and the deportation of Belgians was not done with the consent of the German workers.
The attitude of the German workers at the outbreak and during the war was dictated by the position of Germany, as it was their conviction that Germany was fighting a defensive war. The German workers always had been opponents of war and armaments and never gave assent to the Government's imperialism.

The German workers recognize that the workers of other countries can not appreciate or understand the several actions of the German workers during the war, but these actions were forced on them by the severe struggle waged by the German nation.

HEIRESS TO \$27,000 DROWNED HERSELF IN FRASER RIVER

Vancouver, July 30.—After putting on her hat and coat to go to a lawyer's office to receive papers which were to lead to the receipt of the title of an estate of \$27,000, Miss Alice Smith, aged fifty-eight years, is believed to have drowned herself in the Fraser River at Burnside on Monday. No trace of the body has been found. Children are reported to have seen the woman throw herself into the river, and articles of clothing worn by Miss Smith have been found on the river's bank.
The woman was employed as a domestic at the home of W. J. Allen, Thirty-Third Avenue. A brother who died recently in Edmonton is said to have bequeathed her \$27,000.

NUGGET

We are still recommending our clients to buy this stock as a mining investment. Work is progressing rapidly at the mine; practically 600 feet of the tunnel is completed, and there is great activity in this camp.

FINANCIAL NEWS

NEW YORK STOCKS UNDER PRESSURE

Money Rates Show Renewed Signs of Tightness
(By Burdick Bros. & Brett, Ltd.)
New York, July 30.—There was nothing to encourage the holders of long stocks at the session to-day. Money rates were higher and the opinion that the Federal Reserve Board would take some action to curb speculation gained ground. The market was under pressure from the start following a slightly higher opening due to buying orders placed overnight for short accounts. Quotations were lower all around and the market generally depressed at the close.

Chicago Grains.
Chicago, July 30.—The feeling that damage reports had been overdone caused the letting off of some large long lines to-day. The market continues to be ruled by the weather, and should the dry weather continue it is in danger of becoming overdone. On the other hand receipts are larger and the cash demand less urgent.

AMUSEMENTS TO-DAY

Princess—Mr. Reginald N. Hincks presents Princess Players in "Tantalizing Tommy," and "Kitty Clive."
Pantages—Vaudeville.
Dominion—Mary Pickford in "Daddy Long Legs."
Variety—Taylor Holmes in "Ruggles of Red Gap."
Royal Victoria—Nasimova in "Out of the Fog."
Columbia—Kitty Gordon in "Adele," and serial, "A Fight for Millions."
Romano—Frank Keenan in "The Silver Girl," and Pearl White serial, "The Lightning Raider."

ROYAL VICTORIA

One of the oldest, most famous and most picturesque of seaport towns, Gloucester, Mass., was chosen by Nasimova and Albert Capellani, her director, as the place best fitted for many of the scenes in "Out of the Fog," the latest Nasimova production in which this noted star will be seen at the Royal Victoria again to-night. This old fishing town—the home of the famous clipper ships, once the pride and glory of Yankee captains—

has been sung in song and story and is the place where Kipling wrote his greatest adventure of the sea, "Captains Courageous," and where he made his home while he lived in America. It is a town filled with the romance and traditions of the sea and retains the customs and manners of over a century of seafaring people. These manners and customs have crept into the pictures taken here and make "Out of the Fog," a vivid piece of realism—a real story of real fisher-folk.

DOMINION

The daily life of scores of orphans unfortunate enough to be living in an institution, the founder of which obtained his ideas of discipline at a penitentiary where he made his money through convict labor, is shown in detail in "Daddy Long Legs," screen version of the famous story by Jean Webster, in which Mary Pickford will be seen at the Dominion Theatre all week.

This super-feature is the first to be made by Mary Pickford's own company, after Miss Pickford obtained the screen rights from Klaw and Erlanger to whom she gave her personal cheque for \$40,000. Miss Pickford has the part of Judy Abbott, the little orphan girl who got her chance to go to college through the generosity of a man who later fell in love with her. Directed by Marshall Neilan.

The picture was directed by Marshall Neilan, "The Mark Twain of the Screen," who became one of the foremost directors of the day through his ability to put appealing humor into screen action. Miss Pickford is supported in "Daddy Long Legs" by Mr. Neilan, who has the part of a young college man in love with Judy; by Mahlon Hamilton, who has the part of Jarvis Pendleton, Judy's benefactor; by Milla Davenport, as the tyrannical head matron of the asylum; by Fay Lempert, as Angelica Wyckoff, an ill-mannered little girl reared in luxury; and by one of the most charming groups of child actors ever seen on the screen, as well as half a dozen other adult actors.

The first half of the picture is laid in the John Grier Orphan Asylum. Mr. Neilan has filled it with a surprising succession of humorous and pathetic incidents. The millions of admirers of Miss Pickford will agree when they have seen this picture that the favorite star never had a better or more appealing role than that of the orphan, Judy Abbott, who, as an infant, is picked out of an ash can by a policeman. Given a name from a telephone book by a hard-hearted matron; whipped, starved, and cruelly treated until she reaches the age of twelve, when she begins to spread among the stripe-dressed little motherless babes a sunshine which later is the means of helping them all to better things.

tyrannical head matron of the asylum; by Fay Lempert, as Angelica Wyckoff, an ill-mannered little girl reared in luxury; and by one of the most charming groups of child actors ever seen on the screen, as well as half a dozen other adult actors.

PRINCESS

Anyone desirous of enjoying a most excellent evening's entertainment should not fail to attend one of the remaining performances of the successful three-act comedy "Tantalizing Tommy," which is being produced at the above theatre, preceded each evening by the famous one-act costume play, "Kitty Clive."
Miss Eva Hart in "Tantalizing Tommy" has never been seen to better advantage and is supported by a most excellent company, including Miss Stephens, Mr. R. M. Hincks, Mr. A. M. D. Fairbairn, Mr. James Hunter and others, all of whom sustain their allotted parts in a manner that is beyond criticism. A play with a plot, brimful of humor, replete with witty and clever dialogue and full of the most delightfully amusing situations, it provides, with the addition of the very excellently performed curtain play, "Kitty Clive," a solid evening's relaxation and amusement. Seats can now be booked for the remaining performances, either in person or by telephoning 4625.

VARIETY

It was a cold day. It happened during the thick of the coal famine in Chicago. Taylor Holmes had ordered some coal and was sitting in his window praying for its arrival between shivers, when he saw a load stop in front of his house and suddenly collapse into a big snow drift. Mr. Holmes, work on whose picture, "Ruggles of Red Gap," was stopped for a "coalless" dinner, donned his haviest clothing and went out and helped the coal men bring in the fuel in buckets. "That half day I shoveled coal," he explained, "was the warmest period I encountered for a week." Mr. Holmes is starred in "Ruggles of Red Gap," the photodramatic screen offered Variety patrons this week.

PANTAGES

No hardened theatre-goer gets up and walks out during the last act at the Pantages this week. The vivid portrayal of action in the submarine feature, "Submarine F-7," grips and holds every person in the audience until the last word is spoken and the curtain falls upon the plucky crew of the submarine which is being hauled to the surface after a harrowing experience on the bottom of the sea, where the craft had been plunged following a clash with hostile battleships. The act is novel and thrilling in the highest degree. The scenery depicts the interior of a modern submarine and what goes on the surface of the sea above is shown in the mirror of the periscope, where one enemy battleship after another appears, and one is finally struck and sent to the bottom by a torpedo fired from the

IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitter-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor, and Nerve Force.

When one stops to consider the host of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and attractiveness, it is no wonder that many varied suggestions along this line appear from time to time in public print. While excessive thinness might be attributed to various and subtle causes in different individuals it is a well-known fact that the lack of sufficient phosphorus in the human system is very largely responsible for this condition. Experiments on humans and animals by many scientists have demonstrated beyond question of doubt that a body deficient in phosphorus becomes nervous, sickly and thin. A noted author and professor in his book, "Chemistry and Food Nutrition," published in 1918, says: "That the amount of phosphorus required for the normal nutrition of the body is seriously underestimated in many of our standard text books."
It seems to be well established that this deficiency in phosphorus may now be met by the use of an organic phosphate known throughout English speaking countries as Bitter-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphoric acid which is absorbed in the blood normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing. It is sold by Cyrus H. Bewes in Victoria, and all good druggists.
CAUTION—While Bitter-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should give extra care in avoiding fat-producing foods.

submarine. A shot from the enemy sends the "sub" to the bottom with a serious leak, but the crew works heroically and desperately, but finally given up hope. But just as the commander prepares to open the sea-cocks and "end it all," the hoarse clank of the chains outside the hull of the craft tells the sailors that they are saved. The act is vividly realistic and holds the audience breathless.

COLUMBIA

Kitty Gordon, the resplendent stage and screen star, will be seen at the Columbia for the last time to-day, in "Adele," the latest and timely super-picture in which she appears as the star of United Picture Theatres, Inc., presenting this international favorite in the title role of Adele, a young American woman who was among the first to volunteer her services as a Red Cross nurse in France. The role is a fascinating and powerful one and is acknowledged to afford Miss Gordon emotional opportunities of which she has taken full advantage, and to present the famous star on a new and refreshingly delightful phase, revealing heights of histrionic talent and success surpassing any previous offering of this remarkable star.

ROMANO

Every woman, old or young, married or single, optimist or chronic grouch, will find herself gripped in the spell of "The Silver Girl," starring the distinguished character actor, Frank Keenan, which will be shown at the Romano for the last time to-day. It is a big 100 per cent. man play and a woman's great problem. Young, beautiful and attractive, how would you have acted, Madame or Miss, were you married to a man, old enough to be your father and youth and life, with all its glitter and shallow gaieties, called to you? No answer can be given until it is seen to what extent "The Silver Girl" was tried and tempted. But in the end she proved, not silver, but pure gold.

PRIVATE PEAT IS AT CHAUTAUQUA TO-NIGHT

Canadian Tommy and Author to Speak; Musical Prelude

To-day is the sixth day of Chautauqua and the attractions included an address this afternoon by W. L. McIlwain on "Misunderstood Mexico." As the result of years spent in that turbulent country he knows the people, their desires, their weaknesses and the burdens under which they have been forced to struggle. He was in touch with all the men who in the last few years have joined large in Mexican history, such as Villa, Carranza and Huerta and his address teemed with interest.

Private Peat, a Canadian Tommy, and author of the well-known book of this name, is to speak to-night on "Great Britain, the United States and The Great War." His name is almost a household word throughout the length and breadth of the continent. As the author of "Private Peat," the biggest selling book of the war period, writer of many magazine and newspaper articles, "Private" star of his own firm, he has achieved greater prominence undoubtedly than any other returned veteran in either Canada or the United States.

One of the secrets of the popularity of this slim Canadian lad, both as a lecturer and a writer, lies in his humor. Private Peat was too small, said the recruiting officers, to measure up to military requirements. But the plucky little Canadian finally persuaded them size was a small matter in his case and he sailed with the first Canadian contingent. He was in that thin heroic line that stood between the Germans and the Channel Ports in the early days of the war. He survived the horrors of Ypres and was in the sector facing the first attack from the poisonous gas of the Huns. Shot through the chest, lying for fifty-two hours on the battle field, he was finally rescued and carried back to his own lines. Partially invalided for life, he returned "with a smile," his indomitable spirit unbroken, his irresistible humor untouched.

Musical Prelude.
The lecture will be preceded by a musical prelude by the Regniers, clever entertainers. The prelude is built on the outline of a very clever conversational sketch, that serves as a vehicle to introduce the individual numbers in the most natural sort of a way. Into this sketch is woven a series of remarkable character impersonations by Roy Joseph Regnier, solos, duets, readings and songs in character.

MEDICAL CASES TO BENEFIT BY ORDER

War Service Gratuity Period to Date to Complete Discharge

In future all officers and soldiers of the Canadian Expeditionary Force who have been transferred to the Department of Soldiers' Civil Re-establishment for medical care, shall be counted, for the purpose of payment of war service gratuity, as being upon active service until the time of their complete discharge from the strength of the Department of Soldiers' Civil Re-establishment.
This will work out so that at the conclusion of treatment the gratuity pay shall be computed upon the length of military service, plus the entire period of medical treatment. This ruling will apply to all officers and men coming within the scale of gratuity payments who have since February, 1918, or who may hereafter be retired or discharged from either the military or naval forces.
DR. W. J. DAWSON IN CITY.
Eminent Newark Divine is on Visit Here With Family.
Among British clergymen who have become famous in American pastorates is Rev. Dr. William James Dawson, of Newark, New Jersey, who arrived here yesterday afternoon with Mrs. Dawson and two sons, R. W. and Eric, both of whom have recently returned from overseas service.
Dr. Dawson is pastor of the First Presbyterian Church in Newark. He came to the United States in 1905 after a distinguished career with Wesleyan and Congregational Churches in the Old Country, and has since taken a prominent part in church life in the East.
To a very wide field Dr. Dawson is known as a poet and author. He has written a number of books, and it is understood that his object in coming here is to complete a book on British Columbia.
In collaboration with his son, C. W. Dawson, he has produced "The Reader's Library."
A reproduction of Venice is being built in the Famous Players-Lasky studios on 56th Street, New York, to be used in Elsie Ferguson's latest production. The set is so enormous that it will cover the entire floor space of the studio. A special water system will be installed to float the gondolas that have been built for the scene. Director George Fitzmaurice has shown such remarkable skill in the art of camouflaging exterior scenes that it will take the eye of an expert to detect the imitation Venice.

LAND REGISTRY ACT.

Notice Under Section 26.

TAKE NOTICE that an application has been made to register George Geary, as the owner in Fee-simple, under a Tax Sale Deed from the Collector of the Corporation of the District of Saanich to George Geary, bearing date the 28th day of September, 1918, in pursuance of a Tax Sale held by said Collector on or about the 18th day of August, 1915, of all and singular that certain parcel or tract of land and premises situated, lying, and being in the District of Victoria, in the Province of British Columbia, more particularly known and described as Lot Seven (7), Block Two (2), of Section Eighty-one (81), Map 1006.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" (R. S. B. C. 1911), are required to contest the claim of the tax purchaser within 30 days of the service of this notice upon you, and in default of a caveat or certificate of lis pendens being filed before the registration, as owner, of the person entitled under such tax sale you and each of you will be for ever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said George Geary as owner of the said land so sold for taxes.

Your attention is called to Section 26 of the said Act (R. S. B. C. 1911, c. 137) and amendments.

Dated at the City of Victoria, Province of British Columbia, this 18th day of June, A. D. 1919.

F. J. STACPOOLE, Registrar-General of Titles.

To the Heirs at Law or Deceased under the Will of P. J. McKelvie, Assessed Owner.

A direct service of this Notice to be made by publication thereof in four issues, one in each consecutive week, of a daily newspaper circulating in Victoria.

F. J. STACPOOLE, Registrar-General of Titles.

No. 6655.

JEALOUSY CLAIMED CAUSE OF SHOOTING

Case of Wounding of J. W. Cahill by Alfred Kelly Heard in Police Court

Through jealousy over a woman's affections J. W. Cahill stated in the Police Court this morning that he was deliberately shot through the left leg by Alfred Kelly, a 22-year-old, single, fireman on one of the C. P. R. steamers, at the residence of Mrs. Smith on the evening of July 4. The two men had only met on the previous evening and had been to the Pantages Theatre with two ladies, and the shooting was the abrupt conclusion of a visit by Cahill to the home of the Smiths.

Kelly appeared in court on a charge of shooting with intent to maim. R. C. Lowe appeared on behalf of Kelly. The taking of evidence was completed this morning, but Magistrate Jay reserved his decision until to-morrow morning in order that he might peruse several important parts of the evidence.

Cahill on the witness stand stated that he went to the Smiths' home on the evening in question in company with John Smith. While in the parlor Kelly appeared and then went upstairs and on re-appearing had a revolver nearly new in his hand. Cahill took it in his hands and looked at it and told Kelly to put it away. Instead the defendant put a cartridge in the chamber, took aim at his leg and fired the shot entering behind the knee. He was taken to the hospital.

Phillips James Smith stated that he was waiting at the house when he heard a shot fired, and when he got into the house saw Cahill, Kelly and his mother and sister. Kelly was saying: "Have I shot Jack?" the witness said. Then as they were talking Cahill to the ambulance the witness heard Kelly say: "You're next," referring to Phyllis Smith, sister-in-law of the witness.

At this point City Prosecutor Harrison informed the court that a threat had been made to the lad Phillips Smith. The lad had been told that if Kelly went to jail he would be sent over the road also. The lad became alarmed and telephoned for a police officer, who on arriving found that the man had gone.

The Defence

On the witness stand Kelly stated

reverse the seasons by having your furnace or plumbing work done now.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for what at Stewart, B. C." will be received at this office until 12 o'clock noon, Wednesday, August 28, 1919, for the construction of a wharf at Stewart, District of Skeena, B. C.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the office of the District Engineer at Prince Rupert, B. C., at the Post Office, Vancouver, B. C., and Stewart, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or War Bonds and securities if required to make up an odd amount.

NOTE: Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$10, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,

R. C. DESROCHERS, Secretary.

Department of Public Works, Ottawa, July 17, 1919. No. 6555.

LAJNER-WOODWARD FERRY.

Sale of Government Property.

Sealed tenders marked "Tender for Lajner-Woodward Ferry" will be received by the undersigned up till noon, Saturday, the 9th August, for the purchase of the stern-wheel ferry-boat "Lajner" presently lying at Woodward's Landing.

Further particulars as to the condition of the boat and the equipment, etc., contained therein can be obtained from Mr. John Peck, Chief Inspector of Machinery, Court House, New Westminster.

The highest or any tender not necessarily accepted.

JAMES PATTERSON, Purchasing Agent.

Parliament Buildings, Victoria, B. C., July 25, 1919. No. 6620.

CANADIAN NATIONAL RAILWAYS.

Sealed tenders will be received by the Purchasing Agent not later than noon, August 16, 1919, for two thousand Telegraph Poles required on Vancouver Island, to be delivered along track or for a b. cars, C. N. P. Railway. Minimum per cent. to be twenty-five feet, ten per cent. to be thirty feet. Delivery required within one month after receipt of order.

The lowest or any tender not necessarily accepted.

For further particulars apply to C. C. LARRIE, Purchasing Agent, Canadian National Railway, 837 Hastings St. W., Vancouver, B. C.

No. 6655.

that he had lived with the Smiths since February 18. He was introduced to Cahill on July 3 by Julian Smith. On July 4 the informant came to the house in company with Miss Smith. During the afternoon the accused stated that while driving in the fowls he came across a small fire in an adjoining lot and in the debris he found a revolver which was in bad shape. When employed at the gas works he had found three cartridges and put them in his pocket. When Cahill came in he was anxious to show him the revolver he had found and brought it down and exhibited it. He put the three cartridges in the chambers and was about to return it to his pocket when it went off.

Kelly said that he had no reason to be jealous of Cahill as he was a woman-hater and did not resent the informant's attentions towards Miss Smith. The accused said he had visited Cahill's home and offered to pay the hospital and doctor bills. He expressed great regret at the shooting, which he said was purely accidental.

MANY FIRES RAGING THROUGHOUT PROVINCE

Absence of Rain Makes Work of Forest Branch Exceedingly Difficult

Reports from all the Forest Districts of the Province reached the office of the Chief Forester yesterday afternoon and indicate that all fires except in the Cranbrook and Nelson districts are well in hand. The situation in the Vancouver and lower coast localities, however, is dangerous and hazardous. Many local showers are reported from the interior, while in the northern section there is no cause for alarm.

In the Vancouver Forest District—which includes Vancouver Island—hot westerly winds during the last few days have made the conditions dangerous although all fires are under control. Hot and dry conditions continue in the Kamloops District, where many fires still require attention. A little local rain has made no material difference and the situation is regarded as dangerous.

The Nelson report indicates considerable danger with hot and smoky conditions fairly general. All fires but one are well in hand. Many big fires are reported from Cranbrook with hot and dry weather showing no signs of abatement. In the case of Vernon and Prince George similar remarks apply with the exception that there are fewer serious fires. Prince Rupert remains safe, with cool and cloudy weather assisting the forest rangers.

The funeral of Lillian Thompson McKillop took place yesterday afternoon at 3.30 o'clock from the Sands Funeral Chapel. Many relatives and friends were present at the service.

The service was conducted by the Rev. F. A. P. Chadwick. The hymns sung were "Jesus, Lover of My Soul," and "Safe in the Arms of Jesus." The pallbearers were: Joseph White, F. J. White, F. A. White, C. Ferguson, R. Ferguson and C. Hogan. Interment was made in the family plot at Ross Bay Cemetery.

The funeral of Louis Smith, who was accidentally killed at Shawinigan, Lake last Friday, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. Many relatives and friends were present at the service, which was conducted by the Rev. F. A. P. Chadwick. The hymns sung were "Jesus, Lover of My Soul," and "Safe in the Arms of Jesus." The pallbearers were: Joseph White, F. J. White, F. A. White, C. Ferguson, R. Ferguson and C. Hogan. Interment was made in the family plot at Ross Bay Cemetery.

The funeral of Kenneth Lindley, the eight-days-old son of Mr. and Mrs. Joseph Barlow, of 2415 Douglas Street, took place this morning at 10.30 o'clock at the Sands Funeral Chapel. Rev. F. A. P. Chadwick officiated. The little casket was hidden beneath beautiful flowers. Interment was made at Ross Bay Cemetery.

The funeral of Kathleen Belle Fletcher took place yesterday from St. Mary's Church, Oak Bay. Rev. G. H. Andrews officiating. The pallbearers were W. Moore, C. Caldwell, R. Richards, S. Blythe, K. Price and A. Forrester. There was a large attendance of friends. Interment took place in Ross Bay Cemetery.

Boys in Billiard Parlors.—Antonio Zarelli, of the Victoria Pocket Billiard Parlors, was fined \$10 in the Police Court this morning for allowing boys under eighteen years in his parlors.

JUDGE ROBSON AS CHAIRMAN OF NEW BOARD OF COMMERCE

Ottawa, July 30.—It is understood that Judge Robson, of Winnipeg, has not yet formally accepted the post of chairman of the Board of Commerce, for which provision was made in an Act passed at the recent session of Parliament. It is thought here, however, that Judge Robson is likely to indicate his acceptance of the chairmanship shortly, when the appointment will be made and the organization of the Board proceeded with.

EFFORT FOR PEACE MADE IN MEXICO

El Paso, Texas, July 29.—Efforts are being made by the Mexican Liberal Alliance leaders to unite all factions in Mexico, including that of Carranza, and to induce all rebels to lay down their arms and to restore peace in the republic. M. Bonilla, chairman of the General Executive Committee of the Liberal Alliance in the United States announced here in a statement to the Associated Press. Senator Bonilla recently returned from New York, Washington and San Antonio, where he held conferences with prominent Mexican political leaders.

WHEAT POLICY OF OTTAWA CABINET

Board Will Buy and Market Country's Crop of '1919

Ottawa, July 30.—The Government this afternoon finally determined its policy in regard to this year's wheat crop. The main features of the plan are:

1. A Board to buy and market the crop of 1919.

2. A cash payment on account to be made to the farmer at the time he sells his wheat.

3. The wheat crop of Canada to be sold by the Board at the prevailing world price, and the surplus proceeds, after expenses are deducted, to be distributed to the original sellers of the wheat in proportion to grade and quality.

4. No speculation on exchanges or profiteering by handlers to be allowed in disposing of the wheat crop of 1919 to the disadvantage of either producer or consumer.

5. A direct and immediate cash sale by the farmer and a speedy movement of the crop along the usual channels of transport.

The personnel of the Board will be made known very shortly, as also will the initial cash payment to be made on account to the farmers at the time of the sale of wheat.

PETLURA'S TROOPS MAKING ADVANCES

Only Isolated Bolshevik Bands Now on Right Bank of Dnieper

London, July 30.—A report received here says the troops of General Petlura, the Ukrainian peasant leader, have captured the railway junction at Warnik, thus making contact with the irregulars under General Volynia, whom the Bolsheviks had cut off. General Petlura occupied Darnashina, pursuing the enemy in the direction of Vinnytsa. Only isolated Bolshevik bands remain on the right bank of the Dnieper.

Bolshevik Reports

London, July 30.—The Government of Lithuania has taken measures for the evacuation of that country by German troops. It was stated in a Bolshevik wireless message received today from Moscow.

Information was given by the Bolsheviks in a message bearing on the movements of hostile forces. Russian troops under General Livin, the wireless dispatch stated, will be taken by British ships to the Russian north-western front and German troops under the control of the British General Alexander at Tukum, thirty-eight miles west of Riga, will be sent to the front against the Bolsheviks soon.

DESPONDENT WOMEN

A prominent writer claims that "women are naturally despondent," but often mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, backache, headaches, sleeplessness, and consequent despondency.

Lydia E. Pinkham's Vegetable Compound goes to the root of this trouble, it gives tone and strength to the system and restores women to a normal, healthy condition.

NEW DOMINION LOAN

END OF OCTOBER

Former Victory Loan Committee to Meet in Ottawa Friday

Ottawa, July 30.—The members of last year's Victory Loan Dominion Executive Committee, consisting of prominent citizens and financial experts from all parts of Canada, have been invited to attend a conference to be held here on Friday for the purpose of considering the organization of the next Dominion Loan, which will be floated about the end of October. The requirements of the Government for demobilization expenses, including the existing war service gratuity to soldiers, loans for soldiers' land settlement, important public works of a capital nature, shipbuilding and credits for the purchase of Canadian wheat and other food stuffs and manufactured articles are large and the loan is regarded as most important from the national standpoint. The response to the invitation of the Minister of Finance is stated to have been most gratifying.

Notwithstanding the termination of the war, it is fully realized that this financially speaking, is a war year and that the demobilization and reconstruction period call for heavy expenditures.

The terms of the loan, which undoubtedly will be attractive, will probably not be made known till early autumn.

RAPID FLIGHT TO CAIRO FROM LONDON

Two Canadian Airmen Did 3,000 Miles in Three Days

Ottawa, July 30.—How two Canadian airmen broke the flying record from London to Cairo is related in an interesting record of the trip which Lieut. James Yates and Lieut. James Vance, of the Royal Air Force, has forwarded from Egypt to his parents in Ottawa.

Lieut. Yates and Lieut. James Vance, of Toronto, undertook the trip for the British Government on a few hours' notice. Their mission was one of great urgency by reason of the disturbed conditions in the Near East, and it was of the utmost importance, hence the use of the aeroplane. They left London on the evening of June 21 and reached Cairo shortly after dark on the evening of June 26, having broken the existing London-Cairo record by 16½ hours. They spent two of the five days in forced landings due to petrol trouble, so that their actual flying time for the 3,000 miles was just three days. They averaged from 2½ to 3 hours' sleep a night and one hot meal a day and were greatly fatigued at the end of the journey. After their arrival and the safe delivery of their two distinguished passengers, they were tendered a dinner by Brigadier-General Salmon and complimented by General Allenby.

Dangerous Predicaments.

Lieut. Yates writes: "We both thought it was over several times. Two-thirds of the route is over country which is mountainous right to the water's edge and a forced landing means a certain crash. We had three forced landings due to petrol trouble, and, as luck would have it, it was my trick at the wheel on each occasion. The first, which aged me at least ten years, happened just after we entered the Gulf of Corinth. There were mountains on three sides and the Gulf on the fourth. I managed to get down into the bed of a mountain torrent and actually got away with nothing worse than a broken tail skid. I thanked my lucky stars that I knew Handley-Page as I do."

DEAL INVOLVING SALE OF PRINCESS MAY UNDER WAY

C. P. R. Steamship Will Be Sold, Subject to Survey, to New York People, Who Propose to Operate Her in the West Indies Trade

Consummation of negotiations that will lead to the sale of the C. P. R. steamship Princess May is expected in the immediate future. For some time past a representative of New York shipping interests has been in the city conducting negotiations with the C. P. R. for the acquisition of the Princess May, and the deal is about to materialize. The Princess May will be hauled out on Yarrow's ways to-night for survey, and providing the vessel measures up to classification under United States shipping regulations there is every prospect that the deal will go through.

While the amount involved in the deal is not available the value of the steamship at the present inflated prices for tonnage is estimated at between \$150,000 to \$200,000.

As a Banana Carrier, The New York interests seeking to acquire the Princess May propose to operate the vessel in the fruit-carrying trade between New York and the West Indies.

Before the vessel is sent to the Atlantic, however, considerable alteration and refitting will be necessary, and it is expected that this work will be undertaken here.

Before being purchased by the C. P. R. the Princess May was known as the Hating, and was operated in the China coast trade. After being brought across the Pacific an extra deck was built on her, and the C. P. R. placed the craft in the Northern British Columbia service. For many years the Princess May plied to Alaska ports flying the checked house flag. She was the favorite ship of Capt. John MacLeod, the veteran skipper who some months ago retired from active service with the C. P. R.

Thirty Years Old. The ship was built by Hawthorn, Leslie & Co., Ltd., at Newcastle-on-Tyne in 1888, and is a steel vessel with the following dimensions: Length 249 feet, beam 33.2 feet and depth 17.7 feet. The ship and her machinery are in first class shape. But three years ago

LUMBER SHIPS ARE SCARCE ON PACIFIC

Shipping Interests Consider It Fortunate That French Tonnage Is Available

Scarcity of tonnage on the Pacific is still being sharply felt all along the coast and shipping interests consider it most fortunate for British Columbia that the big fleet of wooden French steamships being turned out at Victoria and on the mainland is available to assist in the delivery of the 70,000,000 feet of lumber ordered by the British Government. The delivery of the French ships is being rushed and the lumber mills will have the lumber ready as soon as the ships can be placed on the berth.

As an instance of the demand on the Pacific Coast for ships carrying lumber the following charter offers from American points are pointed to as a criterion. Charterers on Puget Sound are offering \$55 a thousand for lumber ships to carry to the United Kingdom; \$55 to the European continent; \$35 to \$42.50 to Australia, 220s. to South Africa, \$32.50 to the west coast of South America, \$30 to Calcutta and Bombay, and \$30 to Shanghai and Japan.

These charters are finding great difficulty in obtaining ships. On the other hand the Canadian mills have the French ships and others that can be obtained. The French contract will supply twenty 3,000-ton and twenty 1,500-ton wooden steamships.

To Load on Island. The first twelve of the Foundation-built ships will load lumber on Vancouver Island for Europe. Hull 207 is completing a cargo of lumber at Nanaimo and Hull 216 will follow her on berth. A number of the smaller ships built at points on the British Columbia mainland are on the way back to sea. From now on there will be new ships added to the lumber-loading fleet every week and many of them will be to sea by the fall.

EGREMONT CASTLE IN.

Bound from the Atlantic via the Panama Canal to the Orient the British steamer Egremont Castle passed up to Comox for coal last night.

AROUND THE SHIPYARD'S

Winnipeg to Run Trials.

The wooden steamship Winnipeg, fourth of the French fleet to be completed at the Foundation Company's outfitting plant here, will leave Orford Point on her official trials to-morrow morning. The vessel was hauled out at Yarrow's last night and to-day the hull is being cleaned and painted in readiness for the speed test. The Winnipeg makes a quartette of ships to be completed and delivered by the Foundation Company this month.

Bayly Hopkins on Visit.

Bayly Hopkins, vice-president and Northwest manager of the Foundation Company, is in town to-day looking over things at the shipyard here. This morning he visited Yarrow's, Ltd., at Esquimalt, in company with Edw. H. Jenkins, to size up the newly completed ship Winnipeg. Mr. Hopkins is particularly pleased with the excellent progress being made on the French contract.

IS NOW BOOKING RESERVATIONS FOR AEROPLANE TRIPS

A. E. Disney Now Represents New Field in Transportation Service

"A. E. Disney, passenger agent for European aerial lines." Such is the additional information now contained on the business card of Mr. Disney, the well-known transportation man of Seattle, who represents the shipping interest of the International Mercantile Marine in the Pacific Coast district of the Northwest, including British Columbia.

For the information of tourists Mr. Disney announces that he is prepared to book passengers and reservations for aeroplane journeys. Thomas Cook & Son, of New York, are the general North American agents for this mode of travel, and Mr. Disney is selected to represent alarship lines in the Pacific Northwest and British Columbia. "In addition to the comfortable passenger planes already available, a twenty-four-seater is now being built to travel at a speed of 100 miles an hour, with all the luxuries of home," explains Mr. Disney.

Seven hundred passengers were taken in one aeroplane from London to Paris in a single month and a big aerial system between these two capitals is now being arranged. Mr. Disney assures vacationists that very soon they will have an opportunity to journey to the Holy Land and the Red Sea and take side trips to the pyramids of Egypt and Mount Ararat and a run up to Constantinople and stop a few hours at Athens, Venice or Rome on the way back—all in the course of a very limited vacation period.

WORK OF DISMANTLING TACOMA YARD BEGINS

Tacoma, July 30.—The dismantling of the Foundation Company's shipbuilding plant is under way here. It is expected that within a short time the machinery that cannot be sold here will be shipped to France, and placed in French shipyards. The French Government has taken over the yard and the dismantling is being done under the supervision of J. H. Doumet, representing the French High Commission, and W. W. Jacobs, representing Frank Walker, who represented the French Government in the construction of their various vessels in the Northwest. The taking over the yard actually took place August 1. Probably no industry located at Tacoma has created as much interest in its future as that of the Foundation Shipyard No. 4. The yard was located at Tacoma shortly before the United States entered the war through the efforts of Gen. James M. Ashton and Representative Campbell, of the Foundation Company, then Pacific Coast manager. It is said that the company in construction and location spent between \$12,000,000 and \$13,000,000 here and employed nearly 5,000 men. Twenty vessels of 2,500 tons auxiliary type were turned out here within a short space of time. The first vessel launched was the Gerbeville, on May 1, 1918, and the last the Liberté on November 25, 1918. With the completion of the first contract of twenty vessels it was hoped that additional business would be placed here, but the Emergency Fleet Corporation heads would not give their consent to additional foreign building.

TANKER FROM TALARA.

The big Standard Oil tanker Ardmore passed up the Gulf this morning bound for Vancouver from Talara, Peru.

Search Discloses No Trace of Hulk of Admiral Knight

Vancouver, July 30.—The Admiral Knight is either sunk off Active Pass or is drifting submerged, according to the opinions of those who searched for her all Monday afternoon. The search party headed by A. B. Graham, of the Pacific S.S. Company, went out on the tugboat Dominion and cruised from the spot where the crew was rescued six miles southwest of the Sandheads Lightship, to the entrance of the Pass, and could find no trace of the vessel. The Vancouver Dredging & Salvage Company's men who were alongside the burning ship late Sunday night and Monday morning report that she was very low in the water when they left, and they thought then she was sinking.

Hon. C. C. Ballantyne Will Soon Arrive On Pacific Coast

Hon. C. C. Ballantyne, Minister of Marine, is shortly expected to arrive on the coast from Ottawa. On his arrival here the Minister will inspect the site of the great drydock which the Dominion Government will build at Esquimalt and also will look over the plant of the Harbor Marine Company where steel tonnage is under construction in connection with the Ballantyne shipbuilding policy. At Vancouver the Minister will go into the question of harbor improvements.

THREE QUARTERS OF MILLION TONNAGE

United States Adds 118 Vessels to Mercantile Tonnage in June

One hundred and eighteen vessels with a total tonnage of 755,583 deadweight tons were delivered by American shipyards to the Shipping Board during the month of June, according to board statistics made available July 14. The figures showed an increase of 106 per cent. as compared with delivery figures of June, 1918, when the total tonnage delivered on government account for that month totaled only 230,400 deadweight tons. Official returns of the Bureau of Navigation, Department of Commerce, for the fiscal year ended June 30, 1919, show that on that date the American merchant marine comprised approximately 27,300 vessels of 12,800,000 gross tons. To this total may properly be added fifty-six ocean steamships of 405,000 gross tons, temporarily employed in transports and troopships by the army and navy, such as the steamers George Washington, Leviathan and other seized German ships. The increase in the American merchant fleet during April, May and June was slightly over 1,000,000 gross tons, the total on March 31, 1919, being 27,223 vessels of 11,797,052 gross tons, of which 4,682 ships of 5,469,968 gross tons were registered for foreign trade.

During the past three months the total American tonnage in foreign trade has steadily increased through new construction and through the return by the War Department of ships no longer required to transport troops and military supplies. At the present time half of the American merchant tonnage is registered for foreign trade, a situation without a parallel since 1906, it was said. Ships lost and abandoned during the first nine months of the fiscal year aggregated 267,435 gross tons, and for the whole year will only slightly exceed 300,000 gross tons, the reports for May and June not yet being complete. The transfer of ships from foreign flags to the American flag virtually ceased during the past fiscal year, our additions from foreign sources being almost exclusively Japanese tonnage bought by the United States Shipping Board. The transfer of ships from the American to foreign flags amounted to only 38,200 gross tons.

For purposes of foreign trade attention may be confined, generally speaking, to seagoing ships of 1,000 tons or over, of which on June 30, 1919, our merchant fleet included 2,058 of 7,300,022 gross tons, out of a total as stated of 12,800,000 (not including 405,000 gross tons in military service). On July 30, 1914, just before the war, our fleet of seagoing merchant ships of 1,000 gross tons or over numbered 755 of 2,125,721 gross tons, out of a total fleet of 7,928,538 gross tons.

The wooden steam seagoing tonnage of 1,000 gross tons or over has increased from eight steamers of 10,595 gross tons on June 30, 1914, to 293 of 632,541 gross tons on June 30, 1919. The world's commerce is conducted mainly, of course, by steel seagoing steamers of 1,000 gross tons or over, of which on June 30, 1919, our total documented was 1,456 of 6,072,901 gross tons.

Ships built in the United States and officially numbered during the year ended June 30, 1919, were 1,182 of 2,759,272 gross tons, not including 59 vessels of 121,112 gross tons built for foreign owners, making a grand total of 2,241 vessels of 3,980,484 gross tons, or two-thirds of the world's output of the year, compared with 1,593,583 gross tons launched in 1913 through out the world (including the United States), the world's largest annual output before the war, according to Lloyd's returns.

15 Maxwell Trucks Ran 109,700 Miles at a Total Repair Cost of \$313.07

THESE are figures taken from owners' books. 10,000 owners of Maxwell trucks have been asked to send us their operating costs. The first fifteen received were from the United States, and contained these amazing figures—109,700 miles at a repair cost of \$313.07.

Three of these Maxwells turned 60,000 miles at a repair cost of \$150. A fourth ran 5500 miles at a repair cost of 25 cents. A fifth, 5000 miles at a repair cost of \$1.

Another, 7000 miles and the expense of keeping it on the road was \$2.50.

All told, the repair cost was just .002 plus per mile! And by repairs we mean the total for parts and labor.

So obvious, so well known has become the economy of Maxwell trucks in regard to gas, oil, and tires, that it is no longer an item of news.

18, 19, even 24 miles to the gallon on gas, and 250 miles to the gallon of oil, or 8,000, 9,000 and 10,000 miles to a tire is a matter of common occurrence.

But the main point about a Maxwell truck is this: it runs on and on, and never quits going.

It is efficient.

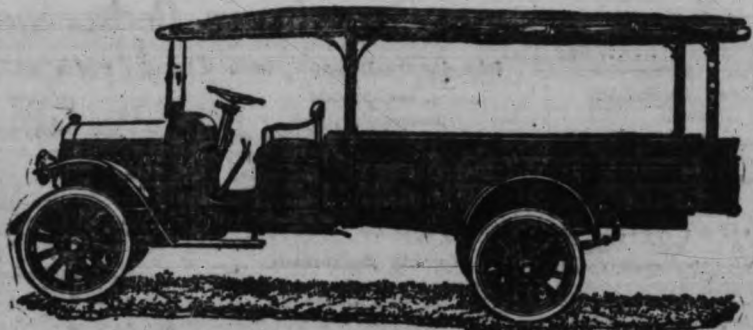

It's a great money earner because it's a great money saver. Many Maxwells pay back their cost in a year's time.

Price for chassis \$1715 f.o.b. Windsor.

A WOMAN OF INFLUENCE.

Think of a woman being managing secretary of one of the largest organizations in the world and vice-president of all its subsidiary companies. The rise of Henrietta Ried sounds like a fairy story. She began at the bottom and conquered through merit—not influence. How did this brilliant Kentucky girl do it? How long did it take? How did she start? What is her secret? You will find the answers to all these questions in Helen Christine Bennett's inspiring account in Pictorial Review for August. She calls it "A Woman of Big Business." It is another of Pictorial Review's big fact-stories of successful American women.

Festivities Will Probably Follow Precedent of Eighteen Years Ago

For the second time in the history of Victoria, the city is to be honored by a visit from the heir to the Throne. When the Prince of Wales arrives in Victoria on the evening of September 29, he will be following the precedent of his Royal parents who, as the Duke and Duchess of York, made a formal visit to the city in October, 1901, during the course of their tour of the Dominion.

The inauguration of the new Commonwealth of Australia in 1900 was the occasion which led to the world-tour by the then heir to the throne and his consort, the itinerary of the Royal party including a trip through Canada. The much-lamented death of Queen Victoria in January, 1901, gave an added significance to the tour which, viewed in its national aspect was an Imperial project of high import. Everywhere in the course of their tour, their Royal Highnesses were received with a magnificent welcome, and in no city on the whole of their tour was the welcome more warm or more spontaneous than in this far-western outpost of the Empire.

The Welcome Then.

At the time of that memorable visit Sir Henri Joly de Lotbiniere was the Lieutenant-Governor, and with the Premier, Hon. James Dunsmuir, and the Mayor, the late Chas. Hayward, and other leading citizens and public officials welcomed the Royal visitors, in the name of British Columbia and its capital.

At that time the South African campaign of 1899-1901 was nearing its close, although peace was not formally signed until the spring of 1902. Many Victorians, as during the recent great war, had sent many of her bravest and best to the ranks of the fighting men, and among the ceremonies attendant upon the Royal visit was the presentation by the Duke of York of decorations to one officer and nineteen non-commissioned officers and men. It is particularly fitting that the year of peace following the greatest war in history should be the occasion of a visit to the Dominion which played so tremendous a part in the war, of a Prince whose part has been not merely that of an on-looker in the great campaign, but who, to quote his own words "found his manhood" there.

Many Social Functions.

While the official programme is not yet decided upon, it is certain that the visit of His Royal Highness on September 23 and 24 will be accompanied by fitting ceremonial, and the second day will be devoted to city engagements. It is said that numerous social engagements are being planned in honor of the Royal visit and these social functions are likely to assume a brilliance that will eclipse the functions of pre-war days.

The Royal visit will coincide with the Home Products Fair, and as the Prince of Wales will make only one visit to the American side and that to Washington, D. C., it is anticipated that there will be a big influx of visitors to Victoria from "over the border" on September 23 and 24.

CZECHO-SLOVAK BAND DELIGHTS VICTORIANS

Attractive Programmes at Chautauqua Yesterday; Dean Quainton's Forceful Address

MME. CAPARELLI A

GIFTED SOPRANO

The Czecho-Slovak Band was the principal feature of the fifth day of Chautauqua yesterday, and enthusiastic audiences were in attendance both afternoon and evening to welcome this aggregation of musicians. Each of the members is said to be a full-blooded Bohemian, and each has his full share of the music-loving characteristic of his race. One felt that every instrumentalist was a musician of high standard and under the able baton of Jaroslav Cimera, the conductor, the ensemble playing was well-nigh faultless. Wood-wind and brass were nicely balanced and at no time was the volume too overpowering for the confines of the tent.

The very catholic programme included such wide variety as the Largo from the New World Symphony and in sharp contrast, a "rag" number, "Smiles" played with the syncopation and weird noise-producing instruments which seem a necessary adjunct of this newest brand of music. One of the most pleasing numbers in the afternoon programme was the Warbler Serenade, with the woodwind passages accompanied by a whistling obligato. The conductor, M. Cimera, showed an admirable restraint and complete sympathy with his band. As a trombone soloist, in which capacity he was at one time a member of the famous Sousa's band, he displayed a nice equipment of technique with smoothness and well-sustained purity of tone.

Dean Quainton.

In the evening the band gave a musical prelude before the address by Dean Quainton, who is the only local speaker to appear on the Chautauqua programme. His impressive and forceful address was on the subject of "Social Reconstruction" and dealt largely with problems in the industrial world. In common with Miss Ida M. Tarbell, the speaker of the previous evening, the Dean took the stand that the solution of the present difficult problems lay in the ultimate and complete co-operation between capital and labor and the recreation of interest in the daily task.

Madame Cafarelli.

At the evening performance Madame Cafarelli treated the audience to two songs in a tongue probably never heard in Victoria before, as the medium of vocal or dramatic expression—Romanian. She announced that accompanied by the Czecho-Slovak Band, she would sing two songs in the language of the Czecho-Slovaks, "Thou

Art Lovely as an Angel," and "Running Waters." They are Bohemian folk-songs and were rendered with pleasing expression and doubtless with excellent enunciation, though that part of the audience who could

comprehend the meaning of the words must have been of entirely negligible proportions.

Madame Cafarelli's clear soprano also was heard to excellent advantage in "The Glow-worm" (Paul

Lincke) and "Kilmarney," and as an encore she sang a single in American slang, offered with appropriate abandon.

The band supplied almost faultless accompaniments under the direction of

Mr. Cimera and although the acoustic properties of a tent do not lend themselves to the finest shadings of vocal music, the solos of Madame Cafarelli were a pleasing feature of the evening's entertainment.
